

# MORE RAIDERS KILLED BY GUARDS STATIONED ALONG TEXAS BORDER

## Mexicans Fire On Army Aeroplane Flying Over Brownsville; U. S. Sends Notice to Carranza

BROWNVILLE, Texas, Sept. 3.—A detachment of the Twelfth U. S. cavalry early today engaged in a short fight twelve miles north of here with four Mexican bandits, one of whom was killed and the others captured. This information was brought here in an official dispatch today.

Several hundred owners of automobiles have been requested to hold their machines ready for instant use in dispatching infantry to any section.

All reports received at Fort Brown concerning the firing today at the aeroplane agreed that the shooting came from the Mexican side of the Rio Grande and from the same place where two days ago shots were fired at an American aeroplane.

The shots were fired at three different times. The first time, today, at the aeroplane flying over Brownsville, the second time, today, at the aeroplane flying over Brownsville, the third time, today, at the aeroplane flying over Brownsville.

Whether the men who fired the shots were Carranza soldiers or Mexican irregulars is not known. The firing which stopped when the Americans began to reply, seemed to come from five or six rifles.

The Mexicans were hidden in the brush on the Mexican side of the river and could not be seen.

It was reported tonight that a Carranza outpost had been stationed at the point from which the firing was directed.

### Fire on Aeroplane

BROWNVILLE, Texas, Sept. 3.—Mexicans on the Mexican side of the Rio Grande today fired nearly a hundred shots at an American aeroplane flying over Brownsville and then turned their guns against a squad of American soldiers on guard at the Brownsville electric light plant. When the firing started the soldiers not being sheltered fled to the fire. There were no casualties.

Lieutenant Joseph G. Morrow and Lt. J. Jones were in the aeroplane. This is the second time within two days that a United States army aeroplane has been fired upon at Los Angeles. Twenty miles north of here, during the past forty-eight hours have been captured ten Mexicans, strikers in the neighborhood and supposed to be members of the army.

United States cavalry and infantry and posses of county officers and citizens tonight continued the search through the section of country eleven miles from here, where two Americans were murdered yesterday.

The list of bandits dead stood at six tonight though others reportedly have been killed and not reported.

### Notify Carranza

WASHINGTON, Sept. 3.—General Carranza was formally notified today by Secretary Lansing that the signers of the appeal for peace in Mexico sent by the Pan-American conference, affixed their names to the document in their official capacities as representatives of their governments. The message was telegraphic and did not go beyond this direct answer to the inquiry made by General Carranza after he received the appeal.

State department officials said they did not know what effect, if any, the answer would have on General Carranza's reply to the appeal which has not yet been received.

The fact that four of the six South and Central American diplomats who with Secretary Lansing composed the conference, were out of town. While it was no doubt here as to the official character of the conference, each diplomat was advised of the question raised and was heard from before the reply was sent.

It is understood that another meeting of the Pan-American conference will be called soon but it was authoritatively stated that no date has yet been set. In the appeal, sent three weeks ago, it was suggested that the conference be held at a time in which answers might be prepared by those who received it.

President Wilson today sent the following telegram to the President of Brazil commending the services rendered to the United States government by the Brazilian minister at Mexico City:

"As Señor Don J. M. Carranza de Oliveira, Brazilian minister to Mexico, is about to depart from the United States to Brazil, I avail myself of the occasion to express to your excellency the grateful acknowledgment of myself and of the people of the United States for the friendship shown and the services rendered by your excellency's government in permitting Señor Carranza to take upon himself in most trying circumstances, the exacting duty of representing American interests in Mexico in a manner which was wholly commendable."

President Wilson today sent the following telegram to the President of Brazil commending the services rendered to the United States government by the Brazilian minister at Mexico City:

"As Señor Don J. M. Carranza de Oliveira, Brazilian minister to Mexico, is about to depart from the United States to Brazil, I avail myself of the occasion to express to your excellency the grateful acknowledgment of myself and of the people of the United States for the friendship shown and the services rendered by your excellency's government in permitting Señor Carranza to take upon himself in most trying circumstances, the exacting duty of representing American interests in Mexico in a manner which was wholly commendable."

Transmitting a copy of this message to the President of Brazil.

# ENGLISH BORROW TO KEEP RATE OF EXCHANGE UP, REPORT

## Get Between \$50,000,000 and \$100,000,000 Temporarily

### COLLATERAL HERE Will Ask All Reserve Centers To Take Securities

NEW YORK, Sept. 3.—All indications today tended to confirm a report current in Wall Street that Great Britain had borrowed from \$50,000,000 to \$100,000,000 temporarily in this market to correct the exchange rate on sterling until such time as her commissioners shall reach New York and consummate negotiations looking toward the issue of a much larger credit loan.

The report by the big men of New York's financial world. Most of them refused to discuss it, and the few who did speak said that there was nothing in the way of an emergency loan that could be made at this time.

According to the report, the collateral on which this preliminary loan was issued was brought to New York in four lots and aggregated the approximate figures of the sum borrowed. The first shipment of collateral totaling about \$50,000,000, was brought from Great Britain to Halifax aboard British men-of-war and thence shipped to New York with about \$10,000,000 in gold in the past thirty days. The other two shipments of securities were said to have been brought here aboard the Adriatic and St. Paul, which reached New York yesterday. This loan, if made, was regarded as only a makeshift to clarify the surcharged atmosphere of foreign exchange markets.

Supported by an unseen stimulant, rates fell in a spectacular manner today, sterling coming to 10 cents of the dollar in the opening of the market. They fell back later, but on the day's transactions a substantial gain of 3/4 cents was registered. Sterling closed at 4 1/2.

Conservative estimates of Great Britain's needs here in the form of credit placed the sum today at a minimum of half a billion dollars with twice that sum mentioned as an outside total.

### All May Purchase

To furnish this staggering sum, it is stated the bankers of all the chief cities of the country would be called on. Philadelphia, Boston, Philadelphia, Chicago, Pittsburgh, Atlanta—in fact, all reserve centers and some cities where there are no reserve banks—would be represented by delegates or by correspondence. The situation would then be placed before them and they would be asked to contribute their share to insure uninterrupted continuance of America's export trade.

Whether Great Britain could furnish sufficient American securities to present to serve as collateral for this loan was another question considered. It was thought that should she be able to raise this sum from Canadian and South American securities, government bonds and even high-class railway bonds—would be thought sufficiently stable to serve as collateral for a part of the loan.

This raised a question: would the controller of the treasury sanction loans by national banks on the bonds of South American governments, and to go further, would such loans be sanctioned where high-grade South American railway bonds were offered as collateral. There is at present no market for these issues, and it was pointed out that under present conditions they would have to be sold in London, should the banks find it necessary to sell them. The opinion that official sanction might be withheld on loans of this character, seemed to prevail.

### Rates Recover

Today's recoveries in rates were attributed by leading bankers chiefly to a normal return to real value from fictitious low prices resulting from speculation. Once steady, the market today showed few changes. Clock quotations on sterling were \$4.65; on francs \$5.58, on reichsmarks, \$4.05, and on lire \$46.

### Bankers Gratified

LONDON, Sept. 3, 7 p. m.—Largest American financial houses in London, such as Morgan, Grenfell & Co., the Farmers' Loan & Trust Company of New York, and the Equitable Trust Company of New York were highly gratified at today's recovery in exchange, in which they construed as indicating that the recent decline had reached the bottom point and that conditions were now likely to improve. The consensus of opinion was that the suddenness of the fall and the recovery clearly showed the drop was the result of speculation rather than of a decided evil in financial conditions.

It developed today that daily sessions have been held of late by representatives of leading financial intermediaries with a view to formulating remedies for exchange difficulties, but these were discontinued on the sailing of the British commissioners for New York, as future remedies are largely committed to their care.

### RANGER MISTAKEN FOR BEAR; KILLED

MISSOULA, Mont., Sept. 3.—Ernest J. Clark, a prominent forest ranger of the United States forest, was mistaken for a bear and killed by a hunter near Thompson Falls, Frank Wheeler county, today. The hunter, dressed in dark brown, mistaking Clark for a bear, fired at him. Clark was killed by the bullet. The hunter was a woman and three children.

# AMERICAN BOYS UNDER AGE TRY TO JOIN BRITISH

## WASHINGTON, Sept. 3.—More than 500 American boys under 18 years old have been discharged so far from the British army upon requests from the state department. Most of these boys went to Canada and misrepresented their ages to recruiting officers.

Peter Douglas of Lambert, Minn., after having been discharged once upon the application of the state department, escaped from his parents and re-enlisted. He was released again, only to take passage on the Arctic and escaped death when that liner was sunk by a submarine.

The Walsh twins of Boston, though only 15 years of age, also managed to enlist twice and the last time were found at Salisbury plain just about to be embarked for France.

# PEACE MOVE BY GERMANY REPORTED

## English Think Enemy Is Taking Steps in That Direction

LONDON, Sept. 3, 6:41 p. m.—Although no representative of the government would place himself on record on the subject of peace rumors, the following statement was made by a high official who declined permission to use his name:

"I am inclined to believe that Germany is making some move in the direction of peace, but I can state that England has absolutely no intention at the present time of making any concession."

"If a suggestion of peace terms should come from the United States, it would be received with interest, but it has been given my communication from the country with which we have so much in common. However, anything done must be done in absolute concert with our allies."

"Recent events in Russia have had absolutely no effect upon this determination. As for Germany's action in regard to her submarine policy, it cannot be said that it will result in any modification of Great Britain's food blockade, which we consider to be perfectly legal. If we become convinced of its illegality, we will suspend it at once."

"Vague talk of freedom of the sea is all very well, but how freedom of land is much more important. In this connection, we cannot see anything in Sir Edward Grey's statement of the press which would bear out the interpretation that we hinted at, possible peace discussions."

# AGREE TO REVISE BALKAN TREATY

## Serbia Accepts Proposals for Concessions, Says Report

ATHENS, Sept. 3, 12 noon, via Paris, 11:10 p. m.—It is announced here that Serbia has accepted in principle the entire proposals for territorial concessions to Bulgaria with the reservation that the new Serbian frontier remain in contact with Greece in some part.

The Greek chamber will adjourn tomorrow until October 14.

ROME, Sept. 3, 9:13 a. m. via Paris, Sept. 3, 4:12 a. m.—Revolution of the treaty of Bucharest has been agreed to by Serbia, Rumania and Greece, according to reports received here, but it is said these countries are not willing to satisfy entirely Bulgaria's claims on territorial expansion for participating in the war.

The impression is gaining ground here that Bulgaria is prolonging the day when she must reach a decision.

The treaty of Bucharest, which ended the Balkan conflict following the victory over Turkey was signed August 10, 1913, between Bulgaria on the one hand and Rumania, Greece and Montenegro on the other.

By the treaty the Rumanian-Bulgarian frontier starts from the Danube at Ploesti and ends on the Black Sea south of Eski-Serin. Bulgarian frontier starts from the Ploesti mountain, continues along the old Turco-Bulgarian frontier and the watershed between the Varda and the Sturma and ends at the mountain of Belashtica. The Greek-Bulgarian frontier starts on the crest of the Rhodope Range and ends at the mouth of River Nestor, on the Aegean sea.

# MORE BODIES FOUND IN SUBMARINE F-4

## HONOLULU, Sept. 3.—Ten more bodies were found today in the hull of the U. S. submarine F-4, provided in the engine room, when a hole was cut through the steel plates to effect an entrance. One body was identified as that of John L. Mahan, machinist's mate, of Lima, Ohio.

Members of the naval board of inquiry declined to discuss the question of whether the finding of so many bodies in the compartment indicated the nature of the accident which caused the vessel to sink in Honolulu bay March 25 with twenty-two officers and men on board.

It was suggested by some of those working on the submarine that an explosion somewhere in the vessel raised the men to seek refuge in the engine room.

# WIFE OF DOCTOR SAYS THAT SHE IS VICTIM OF CONSPIRACY

## Asserts Belief Negroes Sought to Rob Her Husband

### FUNERAL IS HELD Secretary Gives Out a Statement About Murder

PROVIDENCE, R. I., Sept. 3.—The defense of Mrs. Elizabeth Tiffany Blair Mohr to the charge that during a fit of jealousy she plotted the death of her husband, will be that both Dr. C. Franklin Mohr and herself were victims of a conspiracy, according to beliefs expressed here tonight.

In an interview today, which was terminated when she lost her composure for the first time since her arrest, she declared her belief that the three negroes who now accuse her had planned to waylay Dr. Mohr and rob him. She holds that when they broke down under the grilling of the police, they tried to murder their punisher by representing that they had been lured by her upon the promise of a reward.

The body of Dr. Mohr today was placed in a receiving tomb at Swan Point cemetery, after brief ceremonies by the pastor of the church where he and his wife were buried.

Two children, Charles Franklin, Jr., and Virginia Blair, were present at the services at the Mohr home and accompanied the body to the cemetery.

Miss Emily G. Burger, the doctor's secretary, of whom it is said, inspired the crime, has not yet been told of the death of her employer. She remains at the hospital recovering from bullet wounds received while on the automobile ride when Dr. Mohr was attacked. After visiting her today, her brother-in-law, George Kouss, inspired the crime, has not yet been told of the death of her employer. ## SUBSCRIBE MILLIONS FOR CHINESE COMPANY

Big Steamship Project Is Now Under Way in San Francisco

SAN FRANCISCO, Sept. 3.—An announcement that all of the five million dollars has been subscribed and half a million already set aside, subject to instant call, toward the financing of the proposed new Chinese-American Trans-Pacific Steamship company, was made here today on authority of John L. McNab, attorney for the Chinese Six Companies.

Since the arrival here of Dr. Wellington Koo, China's first minister to Mexico, who stated on reaching this port that contracts for the financing of the line had been signed, those interested here have been working quietly but rapidly toward putting the big project into actual operation.

The Chinese, McNab says, expect to begin with vessels adapted to the peculiar conditions of their Oriental trade—that is, they will have limited cabin facilities and great stowage and freight capacity.

Later, the Chinese hope to have several first-class vessels equipped to handle the best tourist travel in the world, the Chinese cannot purchase their ships they will have them built.

## OFFICERS CHOSEN BY NEW THOUGHT

SAN FRANCISCO, Sept. 3.—A commission form of organization was adopted and officers were elected today by the International New Thought congress. It was provided that the congress should be governed by officers subject to recall and that the referendum should be included.

James A. Edgerton of Washington, D. C., was re-elected president. Other officers re-elected were: Secretary, Grace Wilson, San Francisco; treasurer, James F. Baird, Los Angeles, and auditor, R. C. Douglas, Boston.

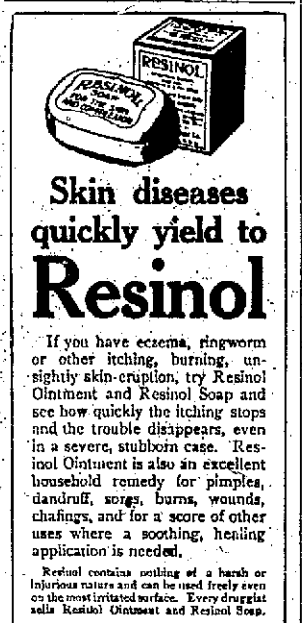

## EIGHT-HOUR DAY FOR STANDARD OIL

NEW YORK, Sept. 3.—Announcement of the adoption of an eight-hour day by the Standard Oil company of New Jersey was made here today on behalf of the board of directors of that concern. Twenty-five thousand workers were said to be affected by the order, which will become effective September 13.

## BOAT OWNED BY ROLPH IS SUNK OFF ENGLAND

QUEENSTOWN, Sept. 3, 7:16 p. m.—The British bark William T. Rolph is reported to be a derelict. The members of her crew are said to be aboard a steamer which rescued them.

SAN FRANCISCO, Sept. 3.—The British ship Wm. T. Rolph, owned by Hind, Rolph & Company of San Francisco, was sunk today off Queenstown, by a submarine according to a message received here by the marine department of the chamber of commerce. She sailed from Liverpool, Wash., March 25, for Sheringham, England, with a cargo of lumber. James Rolph, Jr., mayor of San Francisco is a member of Hind, Rolph & Company.

LONDON, Sept. 3.—The British steamer Churston has been sunk. The crew was landed.

Available shipping records do not contain the name of a steamer Churston.

## WANT DENTAL ROOMS IN PUBLIC SCHOOLS

SAN FRANCISCO, Sept. 3.—The establishment of dental consulting rooms in schools to care for the teeth of poor children, the compulsory inspection of every prospective mother in the measures she should take to give her child good teeth and good health, and uniform dental laws are urgent needs in the United States, according to speakers today before the Panama-Pacific Dental Congress.

There are more teeth among the children of the poor, in need of professional treatment, than there are practitioners to treat them, said Dr. Edward F. Brown of New York. Dr. Brown is superintendent of the bureau of welfare of school children of the New York Association for the Improvement of the Conditions of the Poor.

There is too much ignorance of the evil effects of dental disease," Dr. Brown said, "and inadequate municipal appropriations for their care."

A system of compulsory reports of all prospective mothers by physicians was suggested by Dr. Brown, so that the mothers might be sent into information, instructing them on means to prevent dental disease and good teeth for their babies and to convince them of the value of pre-natal care.

Uniform Legislation in all states was urged by Dr. Homer C. Brown of Columbus, Ohio, and a national campaign by various dental associations was suggested to accomplish this purpose.

## TURKS CAUSE MANY DEATHS IN URUMIAH

NEW YORK, Sept. 3.—At least one thousand Christians were killed and 4,000 others died of disease in Urumiah, Persia, during the five months of Turkish occupation, according to a letter received by J. L. Caldwell, American minister to Persia, from Dr. William A. Shedd of Urumiah, made public here today by the Presbyterian board of foreign missions.

Dr. Shedd stated there were 2,500 Christian burials alone in the city of Urumiah and the American college surrounded. He said that before the Russians left Urumiah on January 2, there were between 32,000 and 33,000 Christians in the city and surrounding villages.

Of the 2,500 Christian families in the district, Dr. Shedd said that about 1,000 were killed and the total loss had been estimated at \$2,500,000.

Considerably more than a hundred Christian girls turned Moslems during the Turkish occupation, the writer said, in hope of escaping violence.

## WOMAN IS CLEARED OF MURDER CHARGE

UKIAH, Sept. 3.—A verdict of not guilty was returned today by a jury in the Superior Court to the trial of Mrs. Nellie Means for the murder of Clarence Tracy, May 27. The jury was out seventeen hours.

Millard E. Means, husband of Mrs. Means, was acquitted of the same charge July 20.

Little evidence except that given by husband and wife was introduced at the trial, which lasted four days. Mrs. Means testified that she shot Tracy when he advanced toward her husband with a revolver, after threatening to shoot him. Her husband corroborated her story. Mrs. Means was not charged with the crime until after she had made an alleged confession when informed that her husband had said she fired the shot.

Means was to have been a witness in a contest of Tracy's homestead, which adjoined his. Tracy was killed when he resisted Means' search for his home on the Tracy homestead.

## SUBMARINE BASE AT NEW LONDON, CONN.

WASHINGTON, Sept. 3.—The first of the American submarine bases contemplated in the plan for an insular defense line of submarines along the coast will be located at New London, Conn. The navy department is working out details and the new base probably will be in operation in a very short time.

It is planned to give crews of coast defense submarines shore quarters. The ships will run out to sea on daily cruises or on patrol duty. Eventually it is proposed to have similar stations all along the coast.

**NOTICE TO IRRIGATORS.**

Beginning on Monday, August 30th, there will be no water in the Houghton and Fancher Creek Canals, nor in Central and Washington colonies. All the water will run in the Herndon canal for one week.

On Monday, September 6th, the water will be turned into the Houghton canals to run for one week.

On Monday, September 13th, the water will be turned into the Fancher Creek Canals and run for one week.

27-inch all-wool challis, in numerous designs. Light and dark backgrounds. Excellent for waists, dresses and children's school dresses.

## ESTABLISH FIRST EVENING HIGH SCHOOL IN FRESNO

Board of Education Extends Fresno Day Course

### APPOINT TEACHERS

Night Courses in Vocational Work to Be Opened

The Board of Education officially established the first evening high school in Fresno in a special session last night. Classes of instruction, chiefly along vocational lines, will be started at the opening of the term on September 13 in the local high school building for adults and children. The board also authorized the appointment of teachers for the new classes. Members of the board of education will meet tonight to select the teachers for the new classes. The board also authorized the appointment of teachers for the new classes. The board also authorized the appointment of teachers for the new classes.

The lengthening of the course in the Fresno high school from four to six years forced another important action of the board last night. For the purpose of gaining state recognition and state and county support the junior college work which has been in progress for several years will be technically included in the high school. Pupils will receive diplomas from either the four or six year course. As heretofore, completion of the six years work will entitle a pupil to enter the junior year in any accredited college.

While the change is almost wholly technical in character, the school will receive over \$1,000 more a year from the state for the support of the two advanced classes and pupils from any place in the county will be permitted to attend without the payment of tuition. Last year pupils living throughout the county were obliged to pay a tuition fee of \$1.

The ruling of Attorney General Webb, a few weeks ago, that the state did not recognize junior colleges and that state money could not be used for their maintenance, promised to considerably hinder the work of the Fresno Junior College. When it was discovered that the school law on high schools reads concerning the course—“Not less than four years.” Accordingly, the course has been extended with the result that an appropriation will be made of \$40 a pupil in the advanced high school and junior college work.

The appointment of new teachers for the opening of the term was made last night. The following were given positions on the regular teaching staff: Misses Edna M. Clark, Florence Mitchell, Alice S. Powell, Miriam Bonnell, Mary L. Alder, Lucille Webster and Ella D. Schuler.

The rules of the Board of Education were amended last night to provide that teachers elected to the unassigned list must hold themselves available for the opening of school and if they are not ready to respond their names shall be placed at the bottom of the list. With the second offering of this nature the applicants shall be eliminated.

Although I have no display windows I am showing a neat, snappy fall line of Clothing, Furnishings and Hats at prices that will appeal to your purse.

Remember, I have the exclusive Fresno agency for Stein-Bloch clothes—Absolutely the best money can buy.

## SUN MAID SPECIAL REACHES CHICAGO ON RECORD RUN

The Sun-Maid special train of forty-two cars of raisins left Fresno on Saturday morning, making record time all the way and attracting special attention at every town through which it passed in day-light.

The P. North Pacific Coast agent for the Union Pacific Railroad Company at San Francisco, wired James Madison, vice-president of the California Raisin Company, congratulating him and the Associated Raisin Company on the record run of the Sun-Maid special train.

The telegram gives assurance that the Union Pacific stands ready at all times to assist in every way it can in placing Fresno raisins before the people of the country. Mr. Madison said that this heavy co-operation of Mr. North and the Union Pacific is very gratifying to the Associated and Raisin growers in general.

Following is the text of the telegram: The Sun-Maid special will arrive in Chicago Saturday morning. It made the run from Fresno to Omaha over the Union Pacific in five days, arriving there at 10 o'clock Thursday evening. It attracted wide attention in all the towns through which it passed by daylight, this being especially noticeable at Kearney, Grand Island and Columbus, Nebraska, where the people gazed in admiration at a solid trainload of forty-two carloads of raisins. I congratulate you personally, and the company you so ably represent, on the splendid advertising record, not only for the raisin industry but for Fresno county generally. Please be assured that the Union Pacific stands ready at any and all times to assist in every way it can in putting Fresno's raisins before the people of the country.

Definite announcement was made yesterday by the California Associated Raisin Company that it will buy wine grapes and manufacture them into wine. This was found the only course to be taken in order to prevent growers from making raisins into inferior varieties of grapes.

Final arrangements were made yesterday by the California Associated Raisin Company with the Parlier and St. George wineries to receive Pechera and Malaga grapes from growers.

The Associated sent out a letter to growers stating that the wineries would give them receipts for whatever quantity of grapes they receive, and that these receipts would be honored for payment at the Associated office in manner similar to raisin weight tags.

Pechera and Malaga grapes will be bought by the Associated at the rate of \$10 a ton, half in cash when the grapes are delivered and the other half in promissory notes. The Associated decided to buy these varieties of grapes so that the growers would not make raisins of them. Such raisins are inferior.

The circular mailed to growers yesterday follows:

Sept. 3, 1915.

## REEDLEY GROWERS' MEETING WELL ATTENDED

Peach Men Soon Pledge \$4240 Stock in New Valley Union

First of Gatherings Since Organization at Fresno Most Optimistic

At the first of the mass meetings of peach growers held since the central meeting at Fresno last Saturday, 107 shares of stock in the California Peach Growers company was subscribed at Reedley last night at a meeting of 200 producers. Though this subscription of \$4,240 was taken in a short time after the meeting had adjourned, it is in addition to the \$4,240 amount of stock that has been sent in by the executive committee from the Reedley growers, and also in addition to the several subscription lists that are being circulated by members of the Volunteer Committee of Forty, at work throughout the San Joaquin valley.

The meeting was held at the Grand Theater and was called to order by J. J. Eymann. A Terkel was made permanent chairman of the committee for the Reedley district, and Secretary C. W. Johnson of the Reedley Chamber of Commerce, was made secretary. Addresses were made by Mr. Eymann, Mr. Terkel, J. P. Bolton, secretary of the executive committee; William Glass, chairman of the executive committee; and C. W. Johnson, who presided at the first meeting of the committee and is chairman pro tem of the executive committee.

Though the lists of subscription have just begun to be received at Fresno, more than \$4,000 of the stock in the organization has already been officially noted, a number of the executive committee said last night. Everywhere the movement is advertised it meets with the hearty approval of the growers, and is, in fact, the salvation for their orchards.

Those subscribing at Reedley last night were:

Name of Subscriber Amount  
J. J. Eymann \$150  
Jacob J. Thiesen \$80  
C. W. Johnson \$120  
W. Johnson \$120  
A. Mortensen \$80  
R. Larsen \$80  
A. E. Conrad \$40  
M. J. Witty \$40  
W. H. Carpenter \$100  
P. S. Clifton \$400  
E. K. Smith \$200  
E. J. Adie \$120  
J. T. Williams \$120  
G. L. Laine \$200  
C. C. Earl \$100  
A. A. Westlund \$80  
A. Terkel \$40  
Isaac Thurn \$80  
M. A. Thurn \$80  
William Thurn \$80  
Jacob H. Smeds \$40  
J. C. Krehbiel \$100  
J. H. Rogers \$120  
Park Williams \$120  
Sam Moreland \$40  
Helen Krehbiel \$40  
George S. Baker \$25  
Tim Sullivan \$25  
Marlan T. Eymann \$100  
J. E. Pantaja \$40  
M. Huse \$200  
H. J. Krehbiel \$40  
Gottlieb Miller \$40  
H. O. Osborne \$120  
J. E. Thorsbush \$100  
George P. Moran \$200  
A. G. Erickson \$120  
Fred Hanson \$50

The executive committee will hold a mass meeting for growers at Sanger next Tuesday night, a similar meeting at Eastern Thursday night and one at Kingsburg Friday night.

Interest in the new company, capitalized at \$1,000,000 for the purpose of establishing a profitable market for dried peaches, continues to grow all over the San Joaquin valley where peaches are raised.

At first it was believed by organizers of the company that it would be possible to get better prices for the growers this year, but it was found that this would be impossible because of the late date the company was organized. Some of the peaches have already been contracted for as low as 2 cents a pound. It costs growers from 4 to 4 1/2 cents to get them ready for the market. Hence the peaches will be sold at a loss. But the growers are encouraged over the new marketing association which beginning next season expects to get at least 6 or 7 cents a pound for dried peaches. This will mean that the dried peach industry in the valley will be placed upon a profitable basis. About sixty subscription lists are being circulated in the peach districts and reports coming in show that growers are subscribing in stock at the rate of about \$1200 a day. The shares sell at \$10 each. William Robertson, secretary of the Chamber of Commerce, has volunteered to furnish the subscription blanks, copies of the articles of organization and all information desired by growers.

## The Wonder

WOMEN'S WEARING APPAREL EXCLUSIVELY

WONDER "Specialized Service," With Its Assurance of Style and Quality, Costs Less—Almost Invariably.

## New Suits, Coats, Dresses, Waists, Skirts And Millinery For The Coming Season

Never, in all its history, has THE WONDER presented such an immense assemblage of merchandise at the season's beginning. The new store with its greater capacity has been well filled with a most carefully selected assortment of the latest and most authoritative styles. Also to a greater extent than ever has extreme low pricing been adopted as a paramount feature—so that WONDER prices are actually lower, almost invariably, than in the largest cities.

### Special Showing of New Tailored Suits...

At 19.75, 25.00, 29.50 And 35.00

The season has been productive of many style changes—innovations caused by the troublesome times in Europe—which have brought into special prominence the military effects. THE WONDER has assembled an immense variety of styles characteristic of the season's most deserving, which includes besides the adaptations of Europe, many that are decidedly American. Extra special values at 19.75, 25.00, 29.50 and 35.00.

### Extra Special New Silk Waists At 1.98

Extraordinary Values In Latest Styles

A new lot of pretty crepe de chine blouses with long sleeves, mostly white—several styles in new stripes, white neatly penciled with brown or black. At 1.98, the entire offering presents values that are very unusual at the season's beginning.

### Other Fine Silk Waists.... 2.98, 3.98, 4.95, 5.95

New Satin Messalines, New Crepe de Chine, New Georgettes, New Pussy Willow—all in the smartest of Broadway styles—some are beautifully embroidered, others in plain tailor styles. At 5.95 are a number of the new dark-colored taffetas.

### Voile and Organdy Waists 98c

Two very special lots of new fall waists in voile and organdy present remarkable values.

### Fall Skirts

Specialty Priced 4.95, 6.95, 8.95 & Up

The new skirts for fall include a wide range of styles in the favored suitings—plainly tailored and novelty effects in serges, gingham and fancy mixtures.

### Summer Dresses

Values To 17.95 3.98 Values To 29.50 7.95

The entire remainder of summer wash dresses is divided into two large groups for clearance—a splendid lot of pretty dresses to choose from in each group.

## The Underprice Cash Basement

The Basement season begins with this week's Saturday sales—offerings of splendid new apparel for fall at prices which will, no doubt, command the attention of every woman to whom economy is an important consideration. The merchandise is all new, purchased especially for the great Basement sale, with the same care and under the same direction for the Main Floor Store.

### 350 New Felt Hats 49c

Including Values Up To 2.50

A great special purchase of hats in soft and pressed felts trimmed ready to wear—very suitable for street or school—white, rose, gray, green, black or white. Small, medium and wide shapes, finished with ribbon bands. Values up to 2.50, choice 49c.

### Girls' Middy Blouses 39c

Fine for school girls—the variety of styles offers opportunity for the selection of a number of different models—this was originally a large purchase of sample waists from which the large sizes are all sold—and for this reason, the balance (sizes 8 to 14) at 39c each.

### Smart Fall Hats 1.98, 2.98, 3.98, 4.95

For women who require a neat fall hat—at once stylish and practical, and are restricted to a small amount for its purchase; the Basement offers most unusual advantage, as a large selection is presented at very modest prices.

### ...Fall Suits.... 9.95 To 19.75

At 9.95 are plain gray, at 12.95, 14.95, 16.95, 17.95 and 19.75 are large assortments of fine suits in serges, gabardines and poplins—every suit offered at less than its regular value.

## WHY PAY MORE?

We defy competition when it comes to workmanship and material used. Have your impression taken in the morning and go home with your teeth the same day. Open Saturday afternoon.

DR. W. P. WINNING  
New Method Dentist  
Rooms 206-7, 2135 FRESNO STREET, over the Associated Raisin Co.

**Miss Harker's School for Girls**  
Accredited to College, Grammar and Primary grades. Fourteenth year. Catalogue upon application. Address Miss Harker, Palo Alto, Cal.

## 1200 TONS OF HOPS DESTROYED BY FIRE

Origin Not Discovered; May Be Part of an I. W. W. Plot

SACRAMENTO, Sept. 2.—In a fire which broke out about 8 o'clock last night, 1,200 bales of hops were burned on the E. Clemens Ranch north, five miles north of this city. The loss was about \$30,000, and was covered by insurance.

The fire started in the center of a big warehouse, and the dry hops burned so rapidly that efforts were concentrated on preventing the spread of the fire. The origin of the fire has not been discovered. No threats of incendiarism have been received by the Hornet editor.

BERLIN, Sept. 2.—By wireless to Tuckerton, N. J.—The German News Agency today says: "Advice from Warsaw are that school trustees elected by the citizens have introduced the compulsory schooling of all children after the German pattern. The government, it is announced, have returned to the Catholic clergy their property confiscated in 1863 by the Russian government. The municipal administration of Berlin during the first year of the war spent \$18,750,000 in relief work for the families of soldiers. This sum was exclusive of the expense of administration."

## OUT OF DEBT

The burning of the mortgage, marking the payment of the last indebtedness of the Panama-Pacific International Exposition last night signals perhaps the most remarkable success in the history of international expositions. The exposition at San Francisco is the first world's exposition to be held distant from the great centers of population, and the first to be held without subsidy from the national government. The people of San Francisco and of California have furnished the entire capital necessary for financing the exposition. This in itself was an undertaking unprecedented, and to have succeeded in it, even under normal conditions, would have been a remarkable triumph.

But, as is well known, conditions have been the reverse of normal. Of all the years in the history of the world, this was the most difficult in which to hold an international exposition, since it is the only year in all history in which most of the nations of the world and most of its population have been engaged in war. Nevertheless at this exposition more foreign nations have been represented and better represented than at any previous exposition, and two of the very best exhibits have come from France and Italy, both of which countries are actively engaged in the war, while Japan, which is also indirectly engaged in the war, is represented on an unprecedented scale. This Japanese representation also was a distinct triumph of tactful diplomacy and international good will. At one time or another the exposition has been involved in practically every diplomatic entanglement in the world. It was undertaking for instance to get England to participate in the celebration of the Panama Canal at the very time when relations between England and the United States were almost at the breaking point over the interpretation of the very treaty under which that canal was built. It was undertaking to get Japan to exhibit at an exposition in California at the very time when relations between Japan and the United States were almost at the breaking point over a California issue. The situation in Japan was so tense that the (then) Japanese government feared it would fall under popular indignation if it carried out its original agreement to participate at San Francisco, and as a matter of fact this government did fall afterwards on another issue before the participation was complete. Nevertheless, in a fine spirit and with magnificent lavishness, Japan has more than made good its original agreement. Brazil was to have exhibited at the exposition, but its exhibits were sunk at sea by a German raider. The Argentine republic had the same experience, but after one exhibit was lost and even after the financial conditions of the southern republic were completely disorganized by the cessation of European commerce, the Argentines still managed to duplicate their former exhibit and to get it to San Francisco.

These are only a few of the difficulties that had to be overcome. In fact, these difficulties were so many that a high official of the exposition remarked "There is only one thing that has not happened, and that is a big earthquake on the opening day." Finally, by the failure of "Alameda county to follow the advice of its most influential citizens and carry out the original agreement that it would contribute \$1,000,000 towards the exposition, the exposition authorities found their capital \$1,000,000 short of the original budget and were obliged to borrow this amount from the banks. Then, after the gates of the exposition opened, the second and third months were hampered by the greatest and most continued rainfall ever known in the history of San Francisco, and these two months accumulated a deficit which added considerably to the floating debt of the exposition. Against all these obstacles, now, at the beginning of September, the exposition is not only an artistic and international success, but a financial one. It has paid all its floating debts and all its secured bonded indebtedness and is now considering plans of what shall be done with the expected surplus, in the way of leaving something permanent for the future out of the great exposition.

Of course the stockholders in San Francisco who subscribed over \$5,000,000 private funds, the city of San Francisco, which loaned itself for \$3,000,000, and the state of California, which taxed itself for \$5,000,000 more, do not expect ever to get back any considerable part of these contributions. If there is some profit and some salvage they will be entitled to their proportional share of these, unless by agreement the sums available shall be diverted to some other purpose. But inasmuch as these investments were not made with any expectation of return, and are not so made in the case of any exposition, the Panama-Pacific International Exposition will go down into history as the one exposition which undertook the most, against the greatest difficulties, and most completely succeeded in accomplishing its purpose.

## "DESTROY PARTIES"

Those who fear that non-partisanship in local and state elections will "destroy parties" should look to the example of England. There is no country in the world so thoroughly under party government as England is. Its parties, in fact, are its government. And yet, in England, there is only one

partisan office—that of member of parliament. Indeed, there are only two elective offices—member of parliament and member of the city or town council. Through the election of just these two, the English people manage to maintain complete control of their government. And, by the election of their national legislators alone, they manage to keep their party system more active and better organized than is the case in any other country in the world.

For that matter, there is no country in the world which maintains its party solidarity in the traditional American fashion. The Canadians, just to the north of us, have parties at least as definite as our own, and far more responsible, but they elect no party officers except members of the parliament. The same is true of all the English colonies and of all the European nations which have party government at all.

Parties will maintain themselves, so long as they have any meaning or use. Is there anything gained by maintaining them longer? And the fact is that parties are much more likely to continue to have meaning and use, and therefore excuse for existence, if their work is concentrated on those offices which involve that meaning and use. When constables and chiefs of police were generally elected because they were Republicans or Democrats, did that make the Republican party more Republican or the Democratic party more Democratic? Did it not have exactly the reverse effect? When most of the effort of the party organizations was devoted to electing candidates for offices which did not involve the party principles, obviously, those principles occupied a less fraction of the party's attention and interest than would be the case if its work were concentrated on the really partisan offices. We have outgrown that stage of civilization in California. It is no longer the chief purpose of parties to get the Republican thieves out of the courthouse jobs and to put the Democratic thieves in their places, or vice versa. We are already living under the non-partisan system as to nearly all our offices, and we find it works well. The only question now disputed is whether the same system shall be extended to governor and members of the legislature. And the only arguments against doing this are precisely the arguments which were made before, but have been refuted by experience, against the introduction of non-partisanship in the other places where it is now working well.

If the Republican and Democratic parties stand nationally for anything definite, they will have no trouble maintaining themselves, by maintaining their sides of the national issues, by the elections where these issues are involved. If they do not stand for anything definite, the system which exposes this will not make them useless. It will merely render visible the fact that they had already become useless.

## WELL DONE, REEDLEY

Reedley has set a good example to the other peach growing sections of the State in the splendid support given by that town to the proposed Peach Growers' Company. When it is remembered that the Reedley growers had attended the Fresno meeting in goodly numbers and that citizens of the town and vicinity had subscribed upwards of \$5,000 prior to last night's meeting, the record of \$14,220 additional secured there and the promise of still further support indicates that the right sort of public spirit as well as the right kind of intelligence is possessed by our Reedley neighbors. If other communities will do as well the Peach Growers' Company will be an assured success.

## BATTLE SLEEP.

Somewhere, O sun, some corner there must be  
Thou visitest, where down the strand  
Quietly, still, the waves go out to sea  
From the green fringes of a pastoral land.

Deep in the orchard bloom the roof trees stand,  
The brown sheep graze along the bay,  
And through the apple boughs above the sun  
The bees hum sounds no fainter than the spray.

There through uncounted hours declines the day  
To the low arch of twilight's close,  
And, just as night about the moon grows gray,  
One half leans westward to the fading rose.

Oiver of dreams, O thou with seal-less wing  
Forever moving thro' the fiery hall,  
To flame-scoured firs the cooling vision bring.  
And let some soul go seaward with that sail.

—Edith Wharton, in the Century.

WHO IS TO BLAME?  
"Not we," the rulers shout;  
"And how the war has come about;  
We can't make out."

"Not we," the nations cry,  
"Our wish for peace we oft expressed;  
We did our best."

"Not we," the nations cry,  
Across the sea denials fly  
Incessantly.

And mid the babel, still  
The others ask in mine and mill  
"Who pays the bill?"  
—H. J. Dawsey, in Chicago Public

## Sketches from Life By Temple

Look Pleasant

BRIEF EDITORIAL  
FANCIES SELECTED

## The Typical Citizen

You are, let us assume, a typical citizen of San Francisco. You are good, bad, religious, atheistic, drunk, sober, rich, poor, intelligent, stupid, selfish, altruistic, tall, short, brown, pale and freckled. You "own" a house and spend all your time doing nothing. You wear overalls, a truck coat and a derby. You are desperately interested in saving enough money to buy Susie, a new hat, and in getting better facilities for moving automobiles back and forth across the bay. You live in the "burbs," in the Sunset district, and in an apartment on Russian hill. You love noise, peace, good bulls, rich food, and rag-time dancing. Your vision of life is limited by the south side of Mission street, the Sierras, the Atlantic coast, and the Big Dipper. Heaven knows where you came from and why you are here. In a few weeks you are to select a group of city officials to represent you, to reward you when you are good, to punish you when you are bad, to furnish you amusement, to spend your money, and to send you to jail. Offhand, a person wouldn't envy them the job.—San Francisco.

## No Charge for Tuition

The University of California must remain an institution where tuition is given without charge, leaving board and lodging to the initiative and industry of the individual students, or of their parents.

The establishment of a tuition fee would slay the hopes of the thousands of poor students. It would prevent parents all over California from sending their children in the University, for though years of scripping and saving may permit payment of board and lodging for the son or daughter, the addition of a big tuition fee would make such college education out of the question.—Sacramento Bee.

## Selling Raisins

Selling raisins to the allies is a lot more becoming in California than selling munitions would be. There can be no objection to supplying "good things" to anybody. Giving life is so much better than contributing death.—Los Angeles Times.

## ASKS TO DIE ON BIRTHDAY.

Hyman Lelmann, of 72 East Ninety-eight street, convicted of throwing his two children from a fifth-story window and causing the death of one, has asked Judge Wadhams, in general sessions, to have him put to death on his birthday, September 16.

The request was made after Hyman had been declared sane by a jury which heard testimony from a commission appointed by Judge Wadhams to examine Lelmann. Judge Wadhams denied it, and sentenced Lelmann to die in the week of September 26.

Lelmann was convicted two weeks ago of the murder of his daughter Sadie, 7 years old. The other child, Samuel, 5, will be an invalid for life. Lelmann sat quietly until the jury began filing out the room. Then he pulled off his right shoe and struck Charles Zanner, head of the Hebrew Association bureau, in the face. He leaped about on one foot until he was subdued by court attendants. Five minutes later the jury reached a verdict.—New York Press.

**West Pocket Essays**  
By GEORGE FITCH  
Author of "At Good Old Street"  
SEE AMERICA FIRST—LINCOLN'S TOMB

Because Abraham Lincoln lies buried in the cemetery at Springfield, Ill., several thousand people visit that city each year to gaze respectfully at his tomb.

This pilgrimage is an act of great devotion, because Springfield is not readily reached by the population of America. Nine-tenths of the population live more than 500 miles away and the tourist routes pass far to the north. But it will pay the real American far greater dividends than a long and billowy trip to Shakespeare's tomb or Goethe's house, or Samuel Johnson's tavern. Lincoln was buried in the town where he grew great and some of his honesty and kindness may be contagious.

The tomb of Lincoln is located in one of the most beautiful cemeteries in the country and the tale of Illinois has built a vast and soaring monument to his memory. It is a granite shaft on a pedestal around which are bronze groups of the army, navy, artillery and cavalry—four institutions upon which Lincoln relied at a time when certain earnest gentlemen were

relics of Lincoln. In the Lincoln home in Springfield, which is carefully preserved, are many more. In the state house are still others. We may read in many of Lincoln's letters, which are preserved here, that he was a shy, timid man when he first came to Springfield, and that the carriages of the rich which splashed mud on him as they dashed haughtily by made him hesitate to bring his young bride there—for he couldn't afford a carriage and the walking was very poor in muddy, unpaved central Illinois.

We should be perpetually thankful that Lincoln did not save up his money and buy a carriage, instead of spending it on law books, no belated education. Sometimes it almost seems as if nothing in the world is so worthless as the things for lack of which the young man grieves and is disconsolate.

Certain earnest gentlemen were urging the country to settle its troubles by organizing a peace association and crawling under the bed in the vain hope that the moment the remains of Lincoln, Mrs. Lincoln, two sons and a grandson.

In a room in the pedestal are many of the remains of Lincoln, Mrs. Lincoln, two sons and a grandson.

WEDS INSTEAD OF FIGHTING.

Supreme Court Justice Callaghan in Brooklyn deprived the knifer of a soldier when he performed the marriage ceremony for Miss Lillian Virginia Englehardt and Siegfried Ehrenberg. The marriage was the first performed by a supreme court justice in Brooklyn within fifteen years.

Ehrenberg, a pharmacist, was born in Prussia, 22 years ago. At the start of the war German agents tried to get him to go back and fight for his native land, but as he left Justice Callaghan's chambers he made it plain that he intends to stay here.—From the New York World.

FULLFILLING CONDITIONS  
Mike, Thorpe's brother died and left the miser a legacy on condition that he put up a hundred-dollar tombstone over him suitably inscribed. The miser ordered the hundred-dollar tombstone—there was no getting around that—but he was determined to save on the inscription. The stonecutter proposed—  
Here lies the corp  
Of Joseph Thorpe.  
But this the miser refused as too long. He cut it down till it read:  
Thorpe's Corpse.  
—Chicago News.

## Snaps From the Store That Backs Up Its Advertising

## SECOND SOLID TRAIN OF RAISINS ON ITS WAY EAST

Consignment of 32 Cars  
Leaves at 3 o'clock  
This Morning

Over 1000 Tons Sun Maid  
Brand Rushed Via  
Santa Fe

The second solid train load of Sun Maid raisins, amounting to 32 cars, was shipped at 3 o'clock this morning by the California Associated Raisin Company.

The train left over the Santa Fe railroad direct to Chicago. There it will be distributed over the Middle West and East.

There is an average of 23 tons to the car, the entire trainload amounting to over 1000 tons.

The Associated Raisin Company have worked hard the past week to get this shipment ready as the raisins are needed to fill orders in the markets to the East. The Santa Fe agreed to put the train through in good time.

This makes the second solid train of Sun Maid raisins to leave Fresno in a week. The first left here last Saturday.

### DEATHS

JENSEN—In Del Rey, September 2, 1915, George Christian Jensen, native of California, aged 20 years, 11 months and 2 days. He leaves to mourn his loss his beloved parents, Mr. and Mrs. Chris Jensen of Fowler; his sisters, Mrs. Chris Jorgensen, Jr. of Fresno, Christina, Kaitrina, Myrtle, Annie and Olga Jensen of Fowler.

Funeral services from Lisle Bros. chapel this (Saturday) afternoon at 2 o'clock. Rev. J. A. Saunders officiating. Friends are invited to attend. Interment in Mountain View cemetery, Fresno City.

SAUNDERS—In Fresno City, 1319 F street, September 3, 1915, James A. Saunders, Jr., beloved husband of Ida, loving son of Rev. J. A. Saunders and Mrs. C. K. Safford, and Miss Sue Safford, are Los Angeles visitors in Fresno as guests at the Sequoia hotel.

Funeral services from the chapel of Stephens & Bean, Interment Mountain View cemetery, Fresno City.

## Unmarried Chinese Driven Insane by Wives Scolding

Sue Lee, an aged Chinese, is now in the Stockton insane asylum, being driven there by the nagging of two wives, which he never had.

The Chinese was arrested Thursday. He claimed that both of his wives were tormenting him. Deputies sheriff investigated and learned that he had never been married. At the medical examination, the demented celestial conversed with his two mythical spouses. Even when taken to the train he insisted that the officers take his wives in charge and keep them until he returned to deal out a well merited vengeance to them for their treatment.

## GOOD ROAD CONGRESS TO BE WELL ATTENDED

Many Fresnoans Interested in Highways Prepare for Convention

Many Fresnoans interested in good roads and national highways will attend the Pan-American and Pacific Good Roads Congress at San Francisco, September 13-19.

Among the representatives from Fresno will be County Supervisor Chris Jorgensen and J. B. Johnson, County Highway Commissioner. J. E. Vogel, Harry P. Winans and John A. New, and W. S. Farley, engineer.

The program will include addresses and papers by men who have been associated with road work for years. A general invitation has been extended to all who are interested in good roads.

1937 MARIPOSA STREET

"Where Price Will Not Stand Between You and Good Shoes"

## TRUSTEES APPROVE OF BUILDING ORDINANCE

No Action Taken on Girl  
Operators in Fire  
Alarm Office

Properly Owners on J  
Street to Agree About  
"Dark Block"

After being in the course of drafting for the last year and a half, the Fresno city building ordinance was finally adopted by the city trustees in session last night. The ordinance was not unanimously passed until the trustees had engaged in a general discussion of the merits and demerits of the different clauses. Truman Hart charged that he did not believe that the ordinance would be a success. He said that he had been too much of a tendency to copy ordinances from Los Angeles and San Francisco. He declared that building conditions in these cities did not apply to conditions in Fresno and that an ordinance should be passed here that would meet local conditions.

Truman Hart withdrew his objections to the ordinance. Trustee Irvin voted against the ordinance, but he explained that for the school district to pay for building permits was like taking money from one pocket and putting it in another. His motion was lost, 6 to 2, Hart and Jones voting in favor of the amendment.

### Fire House Unsafe

No sooner had the building ordinance been passed than Trustee Farner read a communication from J. A. Grant, building inspector, in which he reported that the condition of the rear wall of Engine House No. 1 on J street is in an unsafe condition. He reported that the wall, above the second floor of the building, was one and one-half inches out of plumb and unsafe. He said that the posts were rotten and that the barn in the rear of the building should be demolished. J. G. Winemute, fire chief, explained that the condition of the building was noticed some time ago when three bricks fell from the roof. The communication was referred to the building committee for investigation.

Wright Jewett, wife and two children, motored from Bakersfield to Fresno yesterday and will today continue to the fair in San Francisco.

Berthold Guggenbuehler of the Guggenbuehler Fruit company, registered at the Hotel Fresno yesterday for the purpose of making an inspection of the local plant.

Mr. and Mrs. A. Harvard of Los Angeles registered at the Grand Central yesterday.

Mrs. E. Newman of North Fork is making a shopping visit in Fresno. She is registered at the Sequoia hotel.

C. K. Safford and Miss Sue Safford are Los Angeles visitors in Fresno as guests at the Sequoia hotel.

J. C. Haring and wife of Modera are visitors in Fresno.

### No Action On "Dark Block"

Trustees Waterman brought the attention of the "dark block" on J street between Second and Twelfth to the attention of the board. W. J. Kittrell, one of the property owners, explained that the majority of the property owners were out of the city and they had not been able to hold a meeting. Kittrell said that that he was willing to pay for the gas to light the gas light on his property but that he had received notice from the gas company that service had been discontinued because several of the residents had not renewed their contracts. The matter was put over until September 20 and in the meantime the property owners are to hold a meeting. The block may be disconnected in the electric system and lights similar to those in the downtown district installed.

### No Money for Band

Sol Feiser, representing the Fresno Parlor of the Native Sons, appeared before the board and asked for an appropriation of \$150 to help defray the expenses of taking a fifty-piece band to San Francisco to take part in the "Admission Day" celebration.

Feiser said that a concert would be given Wednesday night in front of the Hotel Fresno; then a concert in the Fresno space in the California Building on Admission Day afternoon and another concert at the Innside Inn in the evening. The trustees declared that there was no money in front of which they could make an appropriation. Feiser contended that it would be a big advertising feature for Fresno but the trustees "stood pat" that they could not legally make the donation.

### No Girls in Fire Department

The recommendation of the police and fire commissioners that the men operators in the fire alarm office be placed in engine houses and the alarm system be placed under the jurisdiction of the city electrician with the understanding girls would be employed, did not meet with the favor of the trustees. There was a little comment on the matter and then the recommendation was referred to the police and fire committees of the board of trustees for further consideration.

### The Matter of Issuing a Liquor License to the Fresno Saki Company

was over to the next meeting. A charge of selling liquor to minors has been dismissed against the owners.

The transferring of one-half interest in a liquor license at 1127 J street from Thomas Correll to John Meager, Jr., passed first reading.

The selling of streets in the Alta Vista tract was referred to the street committee.

The appraisers for the triangle property in front of the Waldhall home on Van Ness avenue value the property at \$1,564.32 and the land in front of the Jensen home at \$1,500. The report was accepted and the city clerk ordered to advertise the property for sale.

The American La-Plante Fire Engine company was given until November 1 to ship the engine ordered some time ago for the Fresno fire department.

The claim of the Moreland Motor Truck company, Los Angeles, for \$4,450 for a fire truck sold in the city, was allowed.

Petitions for are lights at Kern and Angus and Kern and S were referred to the light committee.

The clerk was authorized to advertise for bids for 3000 feet of 2 1/2 inch hose and 1000 feet of 1 1/2 inch hose.

The diagram of the electric system by which the assessments are levied was approved.

The matter of widening the curve between I and Coast avenues was discussed by the board. The church located at the bend wants \$500 for strip of property. The trustees considered this price too high.

## Tries to Capture Coyote on J Street; Breaks Big Window

A lone coyote, cut loose from his native environment and escaped city life for a few brief moments. He is gone, and possibly still going.

Yer Coyote appeared on the corner of J and Fresno streets about 3:15 a. m. A policeman and several early risers spied him as he stopped uncertainly for a moment at the street intersection. The chase was on in a minute. The coyote dodged nimbly every attempt to seize him. The climax to the chase came when E. Hubbard of the St. Francis hotel made a lunge at the animal—missed—and fell heavily against a plate glass window of the York clothing company store, breaking it. The coyote took advantage of the confusion and a moment later disappeared from sight in the direction of the subway.

### UNITARIAN CHURCH SERVICES SUNDAY

Rev. Ruess of Oakland  
Will Start to Fill  
Pulpit

Starting Sunday, services will be resumed at the First Unitarian church with Rev. Christopher Ruess, former probation officer of Alameda county, in the pulpit. Rev. Ruess will be in Fresno every Sunday during this month and will take up his permanent residence here in October.

September sermon topics are announced as follows: Sept. 5, "The Irresistible Call of Religion"; Sept. 12, "The Infamy of Crowds"; Sept. 19, "What Jesus Meant by the Unpardonable Sin"; Sept. 26, "The Greatest Day in History." The sermon precedes on current events during September are entitled: "Why Keep Labor Day?" "The Meaning of Admission Day," "The Tarent Pacific Unitarian Convention," and "The Recent National Unitarian Convention."

The Sunday school will reopen, also the Women's Alliance and other church activities.

### LOCAL BREVITIES

J. F. Hulbert was yesterday appointed a deputy under Constable Ben Drethel.

Alice Hirsche yesterday started suit for divorce against D. S. Hirsche. She is represented by W. D. O'Brien and C. K. Bonestell.

Oscar B. Ellis yesterday started suit for divorce against Eleanor Ellis. He is represented by E. S. Van Meter.

The district attorney's office yesterday filed an information against W. H. Dunn, charging him with selling liquor in no-license territory.

### REV. SMITH TO OCCUPY PULPIT

Rev. A. D. Smith, a retired minister, returned to his home in this city yesterday from a six weeks' vacation in the Sierra Nevada mountains. Rev. Smith will occupy the pulpit in the First Baptist church on next Sunday morning.

### BOOTLEGGER HELD OVER

H. W. Dean was held to answer to the superior court yesterday by Judge Briggs for an alleged violation of the Willsie local option law. Dean was arrested in Kingsburg for an illicit sale of liquor on August 6.

# -SOCIETY-

The popularity of the mountain resorts has increased ten fold this season, and the appreciation of the mountain haunts is visibly expressed in the number of summer cottages which have been erected. Among the latest to claim a permanent home in the Sierras are George C. Aydelotte of Hanford, and D. B. Breshier, of Sanger, who are having attractive bungalows built in Crane Valley, near Glass Lake. Both are to be ready for occupancy early in the spring.

Mrs. H. E. Harbour and children have returned from Berkeley, where they spent a very pleasant summer sojourn.

Mrs. Alice Vianello is enjoying an extended sojourn in San Francisco.

Miss Dorothy Durdick is in San Francisco on a several weeks' visit with friends.

Miss Nora Kenyon, of San Francisco, is the house guest of Mr. and Mrs. Alfred H. McKenzie for a fortnight.

Mrs. W. D. Noble, and her daughter, Miss Dorothy Noble returned on Thursday night from Berkeley, where they have been spending several months.

Mr. and Mrs. O. J. Woodward, and Mrs. Roy Woodward and two children have returned from a summer outing in San Francisco and Berkeley.

Mrs. Charles Miller and her daughter, Miss Alice, Margaret and Marian Miller have returned from a vacation spent in San Francisco.

Mrs. Tom Sample and son, Butler Sample have returned from a summer vacation in Pacific Grove and San Francisco.

Mr. and Mrs. Gerald Thomas and little son, and Miss Anne Beveridge are expected home on Monday from

Portland, after a summer's visit with relatives there. Mr. Thomas joining them for the return trip.

Miss Helen Tupper returned on Thursday after a month's sojourn in San Francisco.

Mr. and Mrs. James Porteous and children have returned from an outing in San Francisco.

Mr. and Mrs. W. D. Noble and Miss Dorothy Noble will be members of a party leaving today for a several days' trip to Giant Forest.

Mrs. Lella M. Hart, Mr. and Mrs. O. H. Cobb and Mr. and Mrs. James Mervin Holden, of the U. S. S. Annapolis is visiting relatives in this city.

Miss Louise Saxton leaves on Sunday for San Francisco for a month's visit with relatives.

Mr. and Mrs. Frank S. Voris left yesterday for San Francisco, on a vacation trip.

Mr. and Mrs. W. E. Chapman leave today for a week's sojourn in the northern Exposition city.

Mrs. George E. Hlekar leaves today for a visit to the San Francisco Exposition.

Ray Fellows leaves Saturday for an outing in San Francisco.

L. H. Miltenthal left last night on an extended business trip to New York and other eastern cities.

Ray F. Fitzpatrick leaves today for southern California, where he will join his mother, Mrs. R. F. Fitzpatrick, of Arkansas City, Kansas, who has been spending the summer in

California. After visiting the beach resorts and the fair at San Diego, Mr. Fitzpatrick will join a party of friends and motor up the coast for a short stay at the fair.

Mrs. John Oliver of 1719 L street has returned from Oakland where she and her children have spent the summer visiting the fair and enjoying the Bay climate.

Miss Frances Burton, a popular young lady of Stratton, visited with Fresno friends yesterday on her return home from a month's visit at the exposition and with friends in the Bay cities.

New arrivals at Huntington Lake Lodge are, Chas. Weir, Los Angeles; Mr. Fred P. Telford, Ishpeming, Michigan; M. J. McLaughlin, and family, Berkeley; P. W. Clark and family, Oil Center.

Rev. and Mrs. Thomas Durden and baby returned last evening from Oakland, where Mrs. Durden has been spending the summer. Rev. Durden joined his family there three weeks ago.

Miss Clara Knotts was business at a sewing party yesterday afternoon, the affair being given at the home of Mrs. H. J. McFarlane on Calaveras street. The guests included Misses Lillian Aydelotte, Marion Eastman, Mildred Gory, Margaret Munson, Nellie Markham, Joyce Niblock, Josephine LeDuc, Rachel Markley.

## ACCIDENT FATAL TO FRESNO YOUTH

### Harry Wilcox, 20, Hurt at Riverdale, Dies at Local Sanitarium

Harry Wilcox, 20 years old, who resided at 215 Howard street, was injured so severely by an explosion of powder at the ranch of Walter Jargat, at Riverdale yesterday, that he died at a Fresno sanitarium at 8:45 o'clock last night. Wilcox, who was temporarily employed at the ranch, was working in the ranch shop when the explosion occurred.

He was alone at the time the explosion occurred, at 8 p. m., and just night had been learned at Fresno, his leg, near the thigh, was badly shattered, and as it was an hour or more before medical aid could be had, the loss of blood and the shock proved fatal. He was rushed to Fresno in the care of a Riverdale.

Wilcox was a son of the Fresno Carpenters' Union. Arriving here are a sister, Mrs. G. W. Frahier; a brother, Howard Wilcox, of Riverdale, and an uncle, Charles Wilcox, of Winterville.

Funeral arrangements had not been made last night.

**NOTICE**  
Mrs. Keaton has reopened the Lillian R. Beattie Shoppe, 204-205 Land Co. Bldg. J and Mariposa, and now specializing in the latest in dressmaking, tailoring, and alterations. We guarantee first class work. Lillian R. Beattie articles for sale. Phone 3129.

**LABOR DAY EXCURSIONS**  
between all stations on the Santa Fe. Tickets on sale Sept. 4, 5 and 6, good until Sept. 7. This means a very low fare to San Francisco, Oakland, Los Angeles, San Diego and intermediate points.

## What Anne Rittenhouse Says About the Styles

Georgette Features the Princess Frock With Boning at the Hem.

NEW YORK, Sept. 3.—Among the August collection shown to the American buyers there are many princess frocks and it looks as though the American women will take it up in early autumn.

She has heretofore gone in for a coat suit of this material. This has been the traditional choice, and even when she had the one-piece gown offered her last fall she refused it. Only the smart American, who was buying a large wardrobe, ordered an expensive frock without a jacket, the modeler customizing them with an unusual suit which was to be worn until November, then put away until the first of April.

This determination did not discourage the French designers. They have something of the spirit of the late Charles Worth, who said that the people paid little attention to one statement of any propagandist, but if a newspaper kept on making that statement every day the public believed and accepted it in the end.

She Wins in End.  
France has always followed this rule in dress. She puts on a feature in fashions one season, and shows no sign of anxiety about being accepted during that season, but the next turn of the fashion tide brings out that same idea, sometimes in identical workings out of it in the same fabrics. Possibly it will take two seasons or two whole years to accomplish what she has set out to do, but in the end she wins.

The fact that Georgette is featuring the princess frock as the first of the fall styles is nothing new. Cheruit has always delighted in the loose one-piece frock, but last autumn Prinet and Jenny made a strong feature of it, and it was accepted by the public proper and felt to be the most attractive line from the studios.

A certain model made by Prinet was admired and copied, but it was not popular in the American sense. Costly skirts had precedence. Then so February another one-piece gown, a frock was brought over here that closely resembled its autumn sister, but had no more ornamentation, and again it was accepted only by the exclusives.

Hundreds of costless frocks were adopted for the summer, necessarily, as they had been for decades, but the special form of frock that had no waist line and hung from the shoulders was lacking. But all the French designers have shown it again this summer, and the buyers from the States are beginning to demand it. New ideas in that form, so there is the spoken prophecy that a large majority of women will take them up as soon as October arrives.

**Silver Braided Novel.**  
The sketch shows one offered by Georgette, whose collection has been highly praised. Its novel feature is in the use of silver braids on a street frock of dark blue serge. It accentuates the form that is considered the form to be the leading ornamentation of frocks as well as hats. The bodice part is simply cut, but the waist is barely accentuated, which is a fact that will surely bring joy to the large number of women who will not, or cannot, reduce the measurement of the natural waist line which they have cultivated assiduously for six years or more.

There is a strong feeling abroad for the long redemptive worn in the days of Louis XIII, but severely modified, and the gown of garnet is indicated in the new model by Georgette. It seems to fall over a pleated skirt and is outlined by the silver braids put on in a serpentine design. In truth, the entire garment is on one foundation and the weight of it all is borne by the shoulders.

The waist is outlined also by the braiding and a cut piece which comes from under the arms, giving the appearance of a short bolero jacket. There are two collars, one of the serge and one of white organdy.

**PARSLEY POSSIBILITIES**  
Parsley has a rather romantic history. For some reason it years ago was dedicated to St. Peter, and it was surrounded with various superstitions. It was called Peter's moon plant, and it is said that an old English gardener was so much impressed with one of the plants in his garden that he had had to transplant parsley—that he refused to move a bed of this appetizing green when directed to do so by his master. The gardener said he would destroy the bed—root it up and bury it—if ordered to do that, but he would not transplant it, and, moreover, said he there was not another gardener in England who would do what he hesitated to do. Just what the fate of the parsley bed and of the gardener was nobody seems to know.

It is a very good plan, if you have a bit of land, to have a parsley bed. Of course, this is hardly the time of year to plant one, but if you have one planted, cover it with leaves, and it will be able to get parsley from it for many weeks after frost comes.

Instead of a bed of parsley, have a pot of it growing in a sunny kitchen window. Soak the seeds overnight, and then plant them in rich soil. They are slow to germinate, but they will thrive, and from a small potful you can pick sprigs of parsley for seasoning all winter.

Never throw any parsley away. If there is some left over, wash it thoroughly.

**ROAD COMMISSIONERS VISIT AT KINGSBURG**  
Inspect Roads Leading Into City: More Trips Next Week

County Highway Commissioners H. E. Vogel, H. E. Winson, J. A. New and W. S. Farley, engineers, were entertained at 2 o'clock yesterday afternoon by a committee of Kingsburg business men. Levi Garrett, president of the First National Bank of Kingsburg, acted as spokesman in showing the commissioners road conditions leading to Kingsburg. The commissioners were taken in machines and were able to study the needs of people in this district. The committee of business men was composed of Albert C. W. Tredwell, George Bayle, H. E. Winson, Albert Nelson, D. W. Jones, H. E. Farley, J. A. New, R. E. Jones, Ray Anderson, A. T. Johnson, R. G. Lutz, and J. L. Patterson.

In the afternoon the commissioners also visited in the Parker district. They met with a number of citizens and were taken over the different roads.

Next week the commissioners plan a number of trips about the county.

Princess Model of Blue Serge Trimmed With Silver Braid.

oughly in several waters, and dip it in boiling water in which a pinch of bicarbonate of soda has been dissolved. Shake it dry and bunch it. Cover with a bit of gauze to keep out the dust, and dry thoroughly. When thoroughly dry rub to a powder and put it in a tin box. Use for flavoring instead of fresh parsley.

For coloring, clean fresh parsley, bruise it, and squeeze all the juice into a double boiler. Heat and remove and bottle. This is admirable for coloring apple jelly, mayonnaise, frostings, ice cream or whipped cream.

Parsley jelly is pretty, and can be used for a salad or for garnishing a meat dish of any kind. Clean the parsley and heat it in a double boiler with a little water for half an hour. Strain, and to pint of the juice add a pound of sugar, the grated rind and juice of a lemon, and boil twenty-five minutes. Stir in a tablespoonful of granulated gelatin, softened in cold water, and chill. This can be poured into a mold and surrounded with a meat salad, or it can be cooled in a bowl and cut into discs for garnishing.

For a salad, chopped nut meats can be added to it, and three cubes of the jelly can be served on lettuce with mayonnaise.

Parsley sandwiches are decidedly dainty. To make them, work into soft butter all the chopped parsley it will hold, and sprinkle a little salt in it. Spread on thin slices of white or whole wheat bread.

Parsley omelet is always appetizing. For this add minced parsley to any reliable omelet mixture just before turning it.

Get a gun and go out for a shoot. There are lots of doves this season, and it will do you good to get out for a few hours hunting, besides the fun you get out of it. We have everything you need.

## Protecting You

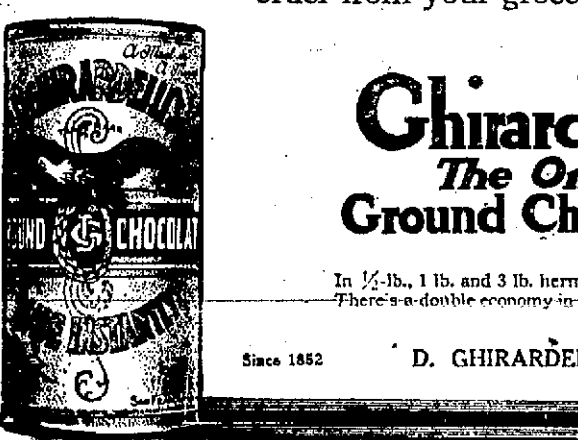

You are sure of protection when you buy Ghirardelli's Ground Chocolate in the hermetically sealed can. It is made in a plant famous for its strict adherence to all sanitary requirements.

Purity is but one of its many distinctions—there's its delicacy of flavor never successfully imitated—its extreme convenience—its well known economy.

When used as a beverage, as a flavor for ice cream or candy, or as an aid to the making of delicious desserts, its natural richness in pure chocolate is at once recognized.

Imitations of Ghirardelli's Ground Chocolate always fall short in some vital particular. For your protection order from your grocer today.

**Ghirardelli's**  
The Only  
Ground Chocolate

In 1/2-lb., 1-lb. and 3-lb. hermetically sealed cans. There's a double economy in buying the 3-lb. can.

## Bowman's Bulletin

VOL. 3. FRESNO, CAL.—MARIPOSA AND J. STS.—SEPTEMBER 4, 1915. NO. 233  
Published Every Few Days By **BOWMAN DRUG CO.** J and Mariposa Sts., Fresno.  
Circulation guaranteed to equal that of any newspaper in Fresno. Suggestions solicited.

**EDITORIAL**  
We have noticed that many of our customers make a point of calling regularly every Saturday, thus taking advantage of our regular Saturday special.

If it pays these persons to attend these sales so regularly, why would it not pay everyone?

There are certain articles that you are using every day in your home. These articles are often sold at greatly reduced prices at Bowman's on Saturdays. Why not take advantage of this fact? Every penny saved is a penny earned and many of these special articles afford savings that run into considerable sums of money.

You are sure of quality when you buy at Bowman's and you know that you can depend upon our prices and the truthfulness of our reductions. These sales are profitable to watch.

**FREE Printing Tomorrow**  
We want to make some FREE prints for you tomorrow because we want to demonstrate to you the superiority of our work. We want to show you that our kodak finishing is of the better kind.

Bring in three of your negatives (printed on 4x5 plates) and we will make prints from them without cost to you. We think you will notice a big difference in the results.

**French and Parisian Ivory of Assured Value**  
Whether you are interested in French and Parisian Ivory to turn to come in and see our stock. We are constantly receiving novelties and at all times have a splendid variety of staple articles such as brushes, combs, mirrors, etc.

We have been told that you are the most complete of any between Oakland and Los Angeles, and we believe it. We would like to have you try it on our recommendation. It comes in jars at 25c, regularly.

**French and Parisian Ivory of Assured Value**  
Note Our Special On Bowman's Rose Cold Cream  
If you will look through the list of specials that are given at the top of this advertisement for tomorrow you will note that one of them is Bowman's Rose Cold Cream. This is a preparation that has been made at our Oakland store for many years and which has been one of the most successful preparations of its kind that we have ever handled.

It is preferred by most women who try it and are particularly because of its purity and its fragrance. It is not supposed to be any good cream on the market. We would like to have you try it on our recommendation. It comes in jars at 25c, regularly.

**Your Worn Out Fountain Pen Has Trade Value**  
Did you know your old fountain pen is worth something? It may be worn out and past its age of usefulness as far as you are concerned, but it is worth something to us. Bring it in and trade it towards a new Waterman. With school about to open—this is a very timely advice, and it will pay you to investigate our system of exchanging pens.

We have Waterman Pens at \$2.50 and up. Other makes at \$1.00 and \$1.50.

## NO MORE PEACE MOVES PLANNED

Announcement of White  
House Follows Note  
From Pope

WASHINGTON, Sept. 3.—The United States will make no further efforts to bring about peace in Europe until it has received information that its most offers will be welcomed by both sides in the conflict. This was stated authoritatively here today in official dispatches of the message from Pope Benedict, delivered to President Wilson yesterday by Cardinal Gibbons.

From the fact that the Vatican is in close touch with Austria, the construction placed by officials on the Pope's message is that the German powers would be willing to discuss peace at this time. It was stated by those in closest touch with the administration that similar word will have to be received from Great Britain and her allies before the President will make any further move.

## MILITIA ORDERED TO STRIKE ZONE

ALBANY, N. Y., Sept. 3.—Governor Whitman today ordered out Company A of the National Guard, stationed at Watkins, to take charge of the strike situation at the St. Regis Paper Mills at Deferiet.

The governor said he had no details regarding the situation.

The governor's action was taken after appeals had been received from both District Attorney C. B. Alverson and Sheriff Charles C. Houser, Sheriff Houser said lives and property were in imminent danger and that he was unable to cope with the situation.

President Wilson has made it clear several times that his original offer of services to bring about peace still stands and that he will do everything possible to further the movement. The United States, however, will do nothing likely to endanger its position as a friend to all belligerents, it was said authoritatively.

The Pope's message will not be made public by the government, although Cardinal Gibbons gives it out. Enough of the contents of the message is known, however, to give basis for indicating that Austria, Germany and Turkey are not adverse to discussing peace.

## TRADING ORDERS MAY BE MODIFIED

England and France Are  
Now Conferring on  
Subject

WASHINGTON, Sept. 3.—Conferees now in progress between Great Britain and France on the subject of trade of neutral European ports are expected to result in a definite announcement of conditions under which Great Britain will authorize relaxation of its orders-in-council to permit the shipment of German or Austrian made goods to the United States.

A statement issued today by the state department revealed that Ambassador Lusk at London had been informed of these conferences and told that an answer would be expected at a later date to his informal inquiry as to what treatment would be accorded applications for shipment permits made through the department's foreign trade advisers.

An official representative of Americans opening millions of dollars worth of merchandise now being at (Continued)

## GERMANS ASSAULTING RUSS STRONGHOLDS ALONG DVINA RIVER

(Continued from Page 1.)

German naval bases along the Belgian shore. The machines returned, although several of them were damaged.

"In Egypt and Syria and at Venice our hydro-aeroplanes have shown great activity. Bombings occurred recently with Austrian hydro-aeroplanes, which were put to flight, one of them was pursued as far as Pola by a French machine."

### Serbian Report

NIS, Sept. 3, via London, Sept. 4, 2:15 p. m.—The Serbian war office today made the following official communication:

"On the Danube front the enemy's work of fortifying was interrupted at the village of Starchevo. On the Save front similar work was interrupted at the village of Trogar, opposite Blinakad. "Yesterday on the Sava front, the enemy's work of fortifying opposite Jolichina, Bara and Skolushanda was stopped by the fire of our infantry. On the same front toward Feneke there has been brief artillery fighting, one of our batteries discovering the enemy's guns and immediately reducing them to silence."

### Austrian Report

VIENNA, via London, Sept. 3, 9:30 p. m.—The official communication issued today by the Austro-Hungarian war office says:

"Russian war theater: In East Galicia, the enemy everywhere in retreating to the Sereth line, pursued by our armies. On the frontier north of Zalosse and east of Brody, and in the district of Ruzhica, west of Dubno-Volynia, triangle of fortresses, the enemy again is offering resistance along the entire front. Our troops are attacking."

"On the upper Jascelda river, fighting is progressing. The Russians have been ejected from some of the fortifications erected at the border of the swampy."

"Italian war theater: On the southwestern part of the line yesterday and today were quiet."

"On the Tyrolean frontier there was minor fighting at Moudonette in upper Val di Genova, and south of Mori, which ended in the retreat of the enemy."

"In the district of Pilsch and at some other points on the front of the capital district there have been several combats and bomb throwing. Our troops have repulsed a heavy attack against the southern part of the bridgehead of Tolmino."

## WAR INCIDENTS

PARIS, Sept. 3, 10:30 a. m.—One of the government officials involved in army frauds in connection with the purchase of munitions committed suicide yesterday to avoid arrest. Warnings for other persons in complicity with technical agents of the army and navy have been issued.

PARIS, Sept. 3, 11:30 a. m.—The idea that a soldier of France should desert the army at the time of his country's greatest need, as suggested upon the mind of Lieutenant Poncet that he committed suicide today under the hallucination that he himself was a deserter.

The lieutenant was a clerk of the supreme court and had been detailed to act as a representative of the ministry of justice before the second court martial of Paris. He was called upon to investigate many cases of desertion. His mind thus fixed upon this subject, it came to haunt him and preyed upon him until he became deranged. Today he shot himself.

PARIS, Sept. 3, 2:30 p. m.—The Ministry of the Interior took cognizance today of assertions that crippled soldiers would not be employed in the public service without inquiry into their political opinions. The ministry announced that the government had determined to reserve such men for a number of places without regard to their political or religious beliefs, because all had served the country with equal courage and had the right to equal recognition.

The announcement is regarded in Paris as further evidence of the government's "saved union" policy, uniting all professions of faith and politics. There are already employed in public departments many one-legged and one-armed soldiers.

BERLIN, Sept. 3, by wireless to Sayville, N. Y.—"Telegrams from Sofia says the Overseas News Agency today, 'state that in attempting an entrance to the Dardanelles a British troop ship struck a mine and sank with 325 officers, 1,250 soldiers and 300 members of the crew all of whom were drowned. Six hundred bodies were recovered.'

The British government officially announced on August 17 that the British transport Royal Edward had been sunk on Saturday, August 11, in the Aegean sea by a German submarine. The number of troops on board was given as 1,350 with 225 officers and men of the crew, and it was stated that about 600 were saved.

In the absence of a date for the sinking of the transport reported through Sofia, it is uncertain whether the reference to the sinking of the Royal Edward is to the loss of another transport by the British.

BERLIN, Sept. 3, by wireless to Tuckerton, N. J.—Emperor William has conferred upon Field Marshal von Mackensen the Order of the Black Eagle, the highest decoration within the Emperor's gift, the Overseas News Agency announced today.

BERLIN, Sept. 3, by wireless to Tuckerton, N. J.—"The Cologne Gazette publishes statistics showing the losses to British shipping during the war. The minimum amount to 45 per cent of the whole tonnage," says the Overseas News Agency.

### SIGHT JAP WARSHIP.

SEATTLE, Wash., Sept. 3.—The steamship Congress from San Francisco, sighted last Wednesday off the Oregon coast a two-funnelled Japanese warship towing a supply ship northbound. It is supposed they had been engaged in floating the stranded Japanese cruiser Asama off the coast of Mexico and are bound for Esquimalt.

### FIVE MURDERERS DIE

GEORGETOWN, N. Y., Sept. 3.—Five murderers were put to death in the electric chair at Sing Sing prison today inside of 60 minutes. The men in the order of their execution were Antonio Salomone of Rochester county; Pasquale Venduto of New York; Eugene Smith of Putnam county; Thomas Terpey and William Perry of New York.

## Duna River

WASHINGTON, D. C.—European Russia is over-rich in water resources, and her rivers, lakes and marshes have taken the place of mountain systems in her scheme of defense toward the West. Each important strand of the Moscow river system against the present invasion of the Teutonic forces has been made along a waterway. Teutonic armies have had to wait, successively, passages of the Wartha, the San, the upper Dniester, the Vistula, the Narva, the Niemen and the Bug, and now the Russians are reported to be regrouping on the line of the Duna marshes and the Duna, or the southern Dvina River. The National Geographic Society in its statement today gives the following description of the Dvina, which has taken on a character of great military interest as the immediate barrier to German advance on Petrograd:

"The Duna has its source in a small lake-plateau, about 800 feet above sea level, in the government of Tver, it rises in the same highland where two of the mightiest rivers of Russia begin their courses—the Volga, which flows to the south and empties at Kherson into the Black Sea, and the Volga, which flows southeast and empties into the Caspian. The sources of the Volga, the river around whose course a Russian folk evolved and a Russian power grew, lie in the Valdai Hills, a few miles north of the lake that give rise to the River Duna. The sources of the Dnieper approach near to the Duna on the south.

"The river sweeps in a flat arc, southwest-northwest, to its mouth on the Gulf of Riga. It takes up the

## Minsk

WASHINGTON, D. C.—Minsk, following Riga and Duenaburg, is the third most important city toward which German forces are moving, one of the very few cities of any consequence in West Russia. The following description of Minsk is contained in today's National Geographic Society war primer:

"Warsaw, Minsk, Smolensk, Moscow are the important points along the great eastern railway whose line beyond Brest-Litovsk the Teutonic armies are endeavoring to dominate. There is little value in the 220-mile stretch of country between Brest-Litovsk and Minsk, in the northeast, but beyond the latter city the industrial and agricultural development of the country becomes rapidly more significant.

"Large manufacturers of leather, agricultural machinery and tobacco are produced in Minsk, and these industries are of quite recent growth. The commerce of the city is of considerable importance, and is mostly in grain, potatoes, leather and in products from the vast surrounding forests. Without the wonderful waterway advantages enjoyed by most Russian cities, Minsk owes its increase in prosperity and significance entirely to the railroads. Before its connection east and west and north and south by rail lines, the town was of no standing and was very poor.

"Minsk lies about 110 miles southeast of Duenaburg, and about 100 miles southeast of Vilna. It is 400 miles southeast of Moscow by rail. The city is situated on the Sviatich, a tributary of the Berezina, and upon the junction of the Warsaw-Moscow and the Libau-Kharkov railroads. The region around is hilly and wellwooded, and houses a population of 56,000. About one-third of the inhabitants are Jews, and most of them are very poor."

"Drainage of an area of 32,800 square miles, and is a commercial center of first importance in western Russia. Riga, situated 10 miles from its mouth, is one of Russia's greatest port cities, and a significant part of the products that its merchants assemble are brought down the Duna. The large cargo-going steamers can ascend only to Riga, but river boats ply as far as Vitebsk. Larger river boats navigate between Duenaburg and Riga, a distance of 135 miles.

"The river is 650 miles long. Its upper course lies through a broken country, giving rise to many irregularities in its bed. In its lower course, it has an average depth of about 10 feet and an average breadth of 1400 feet. During the time of the spring floods, these measurements are largely increased. The Duna, then, often rises up 15 feet above its usual level and spreads out for a width of more than a mile. The river is free from ice on an average of 240 days in the year.

"It is estimated that more than 2,000,000 tons of freight are transported over the Duna each year. Among its tributaries, the Nezhn, Osytra, Kopytka, Ulin, Disma and Berezina are also navigable. The Berezina canal connects the Duna with the Dnieper, thus giving a freight route by water from the Baltic Sea, across Europe, to the Black Sea. As is the general case with Russian rivers, the Duna abounds in fish, a very delicate species of salmon being caught in its waters."

"SIGNAL OF DISTRESS.

"Why are you flying your flag upside down, Suburbs?"

"To let the neighbors know that the cock's gone and all invitations are off."—Philadelphia Ledger.

## Marmora

WASHINGTON, D. C.—With the northwestern Little-theater of the Balkans, Marmora is the war-propaganda as that where the decisive master strokes in this titanic-like of all struggles are to be delivered, a sketch of this remarkable region's past prepared by Harry Griswold Dwight for the National Geographic Society is of more than usual interest. Here the West won its self-confidence, and this confidence has borne fruit in splendid richness for longer than 2,000 years. Here the course of civilization has been changed and modified several times, and here today, the attitude of the world is fixed in the belief that the future of Europe will once more be determined by events about to transpire. In the bulletin just issued by the National Geographic Society, Mr. Dwight tells about "The Gates to the Black Sea."

"There is something alluring in the very shape and position of these lakes—the Black Sea and the Sea of Marmora—separating as they do the two most historic continents of our globe and communicating with each other and with the outer seas by openings that seem miraculous. And those unimpaired waters have been from earliest times, as they happen again to be today, the theater of epic events. For us of the West no legends are older than those of Zeus and Io, of Phryxus and Helle, of the Trojan war, of Japan and the Argo, which commemorated the earliest voyages into the great lakes of the Levant.

"Of the two, the Marmora—the Propontis, if you prefer to be classical—is by far the smaller. Not much more than 100 miles long and some forty miles across at its broadest part, it is about the same size as Lake Champlain. The Marmora has much of the features of air, brightness of color, and beauty of scenery that we associate with the Aegean and Ionian Seas. Thread the narrow slit of the Bosphorus, however, and you pass into an entirely different world—sterner, barer, rockier, colder.

"If the Marmora may be compared to Lake Champlain, the Black Sea is about four times the size of our great lake. Lake Superior is 412 miles long by 137 wide, while the Black Sea has a length of 750 miles and a breadth of 335. That there is something dark and unfriendly about it is more than a legend. The Bosphorus is twenty miles long, and at one point of its tortuous course the hills of Europe and Asia come within 500 yards of each other. The Dardanelles is twice as long and nearly twice as wide, varying from 1,400 yards to 5 miles. Its European shore, Gallipoli Peninsula, is a Thracian Chersonese of the ancients, and its steep ridge overlooks the plain of Troy on the Asiatic bank and the broken foothills of Mt. Ida.

"While its two historic gateways are strategically the most important features of Marmora, that picturesque little sea has a character all its own. In any other part of the world it would long ago have become a place of sojourn for yachtsmen and sun-bathers, so happily it is treated by sun and wind, so simply provided with bays, capes, islands, mountains, forests, and all other accidents of nature that make glad the heart of the amateur explorer. As it is, the Marmora remains strangely wild for a sea that has known so much of life. More numerous than the settlements of today are the ruins of yesterday. About no body of water in the world of equal size, have stood so many of the great cities. It is almost impossible, indeed, to give any coherent account of the story of Marmora, so much history and legend have crowded its shores."

"Writing of the antiquity of the straits question, Mr. Dwight says: 'The true question of the straits arose as early as the fifth century B. C., when Alcibiades, of Athens, counselled the people of Chrysopolis, the modern Scutari, at the southeastern extremity of the Bosphorus, to take toll of passing ships.' But the Ottoman regulation of the straits has been far more jealous than anything attempted by the ancients. 'The Turks have allowed no foreign men-of-war to enter the Marmora,' the writer continues, 'unless under rare and special circumstances; and not only do they exercise surveillance over the traffic in the straits, but twice during the last four years they have closed the Dardanelles to navigation of any kind.'

"At the moment at which I write the fleets of France and England are hammering at the historic gateway. Thus the question of the Black Sea, which is the ancient question of the straits, is posed anew, more dramatically than ever before. 'If it is for final solution? No solution can be found,' the writer concludes, 'which will give any one nation an absolute right of control over the Bosphorus and the Dardanelles.'

"THEORY AND PRACTICE  
"Mrs. Blough—I don't try to suit everyone. I always want people to take me just as I am.

"Editor—Glad to hear it, for we are in a big hurry. I'm the staff photographer for the Standard, and the Sunday editor sent me out to get a snapshot of you."

"Mrs. Blough—Good heavens! Wait till I run and fill up a bit and put on some more powder.—From Judge.

## Lecture

No. 223

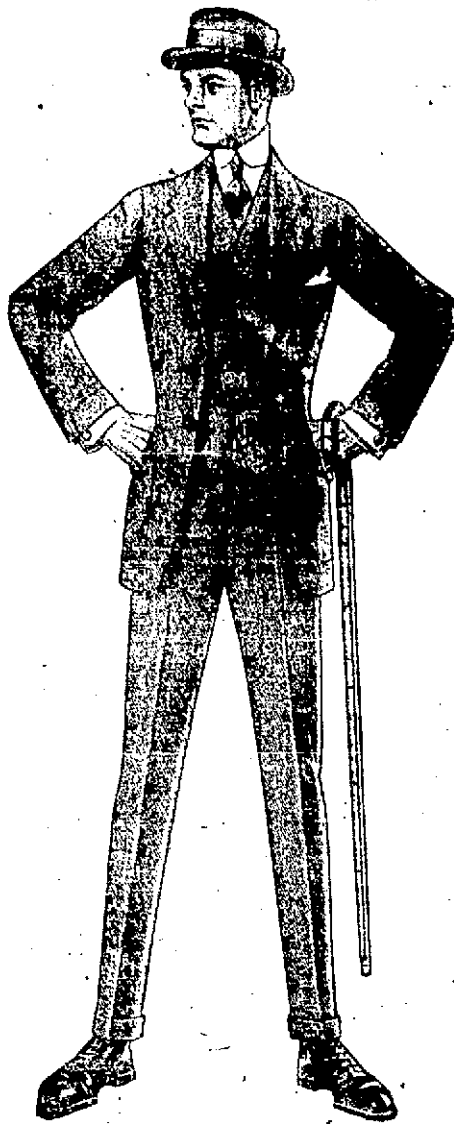

When you come to my office, I will do the work for you. I won't trust you to a "hired" dentist that will take no interest in having you come back to me. I have employed a great many dentists, none of which were truly satisfactory, so I concluded to do all my work, and if I could not would let the patient go elsewhere. My patrons find this more satisfactory. So do I.

GOLD CROWNS AND BRIDGEWORK \$5

COPYRIGHT 1915 THE HOUSE OF KUPPENHEIMER

## A Little Sermon

Being a boiled down discourse on the error of the "Penny Wise" policy

A MAN with a porterhouse appetite may be persuaded, once or twice, that a rump steak is just as "nourishing" — but in the face of the evidence of the man who does the chewing and passes judgment on the favor, the conviction doesn't last.

We have been in the clothing business long enough to know that under a certain price, quality cannot exist. And while we concede the point that some suits may LOOK somewhat like a \$20 Kuppenheimer — somewhere somebody may have sacrificed the quality under what a GOOD SUIT can be made and sold for.

But when the same claims are made for inferior merchandise that can honestly be put forward for only such clothing as that made by THE HOUSE OF KUPPENHEIMER, it's high time that the buyer insists on looking for evidence of KNOWN responsibility before he pays ANY PRICE FOR ANY SUIT.

We have never tolerated shoddiness or cheapness for the sake of price. We have never been content to give our patrons anything short of the best—and we never shall.

Kuppenheimer clothes are the best OUR money can buy. And on our long experience and judgment, you may rest assured you are getting YOUR money's worth—plus.

Dissolve a few in the mouth when fatigued or hungry. Sample free, HORLICK'S, Racine, Wis. **Be Substituted "Just as Good" as HORLICK'S, the Original.**

## THINK AH KING WAS VICTIM OF TONGMEN

Seattle Police Learn of Murder Through Letter

SEATTLE, Wash., Sept. 1.—Ah King, wealthy Seattle Chinaman, killed dead Tuesday in a Sacramento, Cal., hotel with a bullet hole in his head, did not commit suicide, but was murdered, according to a letter received here today by friends of Ah King from a San Francisco Chinaman whose name was withheld.

Chee How, a cousin of the dead man, was to arrive in Sacramento tonight to investigate Ah King's death. Seattle police have telegraphed the Sacramento authorities to provide special protection for Chee How.

The belief prevails in Chinese quarters here, according to Look Lee, a business assistant, that Ah King was the victim of a long feud.

COMMITTEE CHANGE  
NEW YORK, Sept. 1.—William F. McCombs, chairman of the Democratic national committee, announced today that he had appointed Eugene J. Reed of Manchester, N. H., as a member of the finance committee of the Democratic national committee to succeed A. Mitchell Palmer of Pennsylvania, resigned. Reed formerly represented the first district of New Hampshire in the House of Representatives.

MANCHESTER, Eng., Sept. 1.—Theodore Singleton, a British journalist of German parentage, was sentenced today to a term of six months in jail for writing for American newspapers matters "calculated to prejudice the relations of the British government with neutral countries." When arrested on August 21, Singleton denied that his articles were intended for publication.

## MAN DISAPPEARS ON WAY TO HOME IN EAST

Think Wife Was Ordered From California Town

NORTH YAKIMA, Wash., Sept. 1.—Search was instituted here today for F. J. Van Sickle, following a report from New York that a man of that name, living here, had disappeared on his way East.

The only possible trace was a statement from the police that when they asked a woman to leave town about a month ago she said her name was Van Sickle, and appealed to a local branch of a big benevolent society for protection, saying her husband belonged to a California club of the order.

Barrett Honored  
SAN DIEGO, Sept. 1.—Pan-American day was celebrated at the Panama-California Exposition with appropriate exercises today. The guest of honor was John Barrett, director-general of the Pan-American Union.

In a speech delivered at the Brazilian exhibit, Barrett lauded the exposition for its success, beauty and completeness. When ground was broken for the exposition July 15, 1911, Barrett turned the first spadeful of earth. Taking part in the exercises were several representatives of South American countries.

Veterinarians  
OKLAND, Sept. 1.—The American Veterinary Medical Association now holding its annual convention here, decided today to incorporate the association, which has been in existence, it was announced, 51 years. The purpose of incorporation, it was stated, was to simplify the business management of the association's monthly magazine, The Veterinarian, and held their annual banquet tonight.

"OREGON KID" WINS REGATTA.  
ASTORIA, Ore., Sept. 2.—The principal event of the opening day of Astoria's twelfth annual regatta was the twenty-mile free-for-all speed boat contest for the championship of the Pacific coast, which was won by Oregon Kid, with an average speed of 35.95 miles an hour. The Oregon Wolf was second.

MRS. W. W. YAGER WINS  
KANSAS CITY, Sept. 2.—Semi-finals in both singles and mixed doubles were on the program today in the Missouri Valley tennis championship for women. Mrs. W. W. Yager, the title holder, defeated Miss Margaret Cheney of Phoenix, Ariz., 6-3 and 6-2.

THORPE TO COACH INDIANA U.  
BLOOMINGTON, Ind., Sept. 2.—Jim Thorpe, famous football star of the Carlisle Indian team, regarded by many as the world's greatest athlete, will assist Coach Childs in coaching the Indiana University football squad this year.

## OLENDER BUILDING WORK GOES ON RAPIDLY

Excavation and Basement Completed; Floor Now Being Poured

Form of Construction, New Here, Is Attracting Much Attention

Work is progressing rapidly on the Olender building, Tulare and 11 streets, and the first floor is rapidly assuming shape. The building, which is to be a two-story structure, with construction for a modern retail store in the first story, will be completed at a cost of \$25,000.

A feature of construction work, the steel forms, used with the reinforced concrete, is new in Fresno building, and though the theoretical application of the method is known to architects and builders, their use in this structure is attracting much attention in this section. This form of work brings about the centering or form work and among the many advantages claimed for the steel form system by its adherents, is its economy.

Considering that the cost of centering is about one-third of the total cost of concrete work in buildings, and that it is practically a total loss at the completion of the work, it is a very logical place to introduce economy. One of the men in charge of the construction said yesterday in explaining the new system, "Economy in form work can best be effected by the use of steel forms, made in standard shapes, which effect economy in concrete and steel and efficiency in construction."

Steel forms are used in concrete construction as a mould for the joints and the intervening slab. The load is carried on these joints in one direction to the supports. Among the advantages claimed by the advocates of the new method of construction are economy, efficiency and economy.

Since the debris of the collapsed wall of the building has been cleared away, the work on the excavation and the pouring of the first story has been rushed. Higgins and Palmer are the contractors.

## MONTEREY BAY LOTS ACTIVE

Since the recent visit of the Congressional committee on rivers and harbors to Monterey Bay and the assurance of the building of a breakwater and railroad connection, sales in that town and in the districts about the bay are quickening rapidly, real estate men say. A federal appropriation of \$80,000 for use in the construction of a breakwater has been made, and the railroad also will be put through. During the fall much activity is looked for in this territory.

## Catarrhal Poisons Are Deadly In Effect!

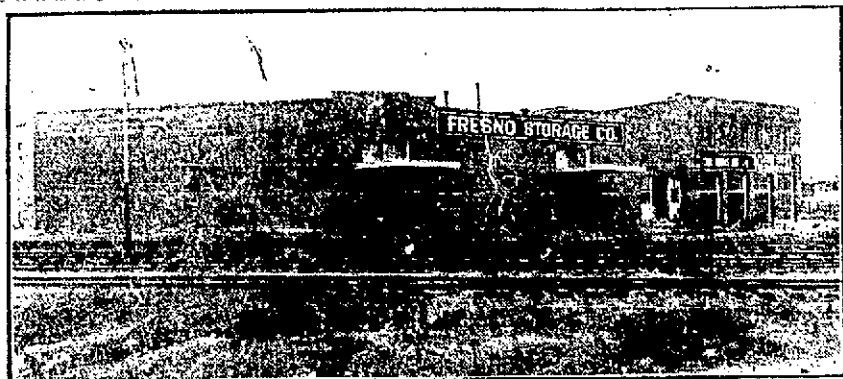

CATARRH is not a disease to trifling with; its presence in the system is a certain sign of blood impurity, which if not overcome will lead to a complication of diseases too horrible to contemplate.

Take for instance catarrh of the stomach, which is only one of the many forms of this dire affliction, and let this disease advance without interruption. Soon you begin to lose weight, in the face of a vanishing appetite, the stomach becomes sour, your back aches at frequent intervals, your tongue is coated, you feel bloated after eating, you have spells of faintness, your breath is offensive, and have shooting pains in the stomach.

**SMITH BROS., Manufacturers, Fresno, Cal.**

## STORAGE BUILDING IS FINISHED

The \$15,000 warehouse for the Fresno Storage Company, at P and San Benito streets, was completed during this week by the Hanson Construction Company. The building was turned over to the warehouse company in the

second time of twenty-four working days. (7. A Adams as sub-contractor, completed the entire brick work in six and one-half working days.

The warehouse is an excellent "Class B" structure. It has asphalt-concrete floors, fireproof doors and

windows and asbestos roof. The building is equipped throughout by its own system of fire protection.

The building was designed by Ernest J. Kump for the United Warehouse Company and is leased by the Fresno Storage company for a term of years.

## TRUSTEES ACCEPT PLANS FOR SCHOOL

New West Park Building, to Cost \$10,000, Ready in Two Months

Plans for the proposed new West Park school building, two and one-half miles from Fresno, were adopted by the board of school trustees last night. Figures and specifications will be submitted to the contractors today.

The plans, drawn by Ernest J. Kump, are for a brick and plaster building with tile roof, to be erected at a cost of \$10,000. The building will be finished within two months, according to present plans.

## SALES MADE DURING WEEK

Among the sales reported for the week are:  
By Guy Stockton—Lot 3 in block 1, Sunnyside gardens, with improvements, including residence, \$1225 consideration.

Two lots in Borne tract to Gustave Font from J. Perkins. Consideration, \$500.  
Two lots in California Avenue, Heights to J. DeLaney from A. Gerhart. Consideration, \$400.

By J. E. Wright—Two lots in Villa View tract, from George S. Thiel to R. L. Anderson. Consideration, \$500.  
Two lots on block 2 of the Hartley Addition. Names of purchaser and owner withheld. Consideration, \$1800.

## CONTRACTORS FINISH HANDSOME HOMES

Van Ness Avenue and L Street Residences Are Ready for Owners

Two handsome new residences, those of A. Hoover, on L street, and of Joseph Marcel, on Van Ness avenue, will be finished this week.

The work on Hoover's home, which is to be of the Swiss chalet type, has been practically completed, and the contractor, James Minard, is placing the finishing touches.

The home of Marcel, in the Italian renaissance period, will be one of the most attractive residences of the city. The walks, pergolas and rear part of the grounds will be typical of the Japanese style of garden setting. The building will be ready for occupancy today. James L. Daly is the contractor.

## SELMA WILL HAVE NEW SANITARIUM

Plans Approved and Bids to Be Asked of Builders Next Week

Plans for a new home for the Selma Sanitarium, drawn by Ernest J. Kump, have been approved and the contractors will be asked to make bids for the construction of the building Monday. The structure, which will be owned and operated by Mrs. M. Christensen, will be two stories in height and of stucco finish.

The building will have two wards, an operating room and apartments, ten rooms for patients and a private ward for certain cases. Mrs. Christensen has been conducting the Selma Sanitarium, but the institution has outgrown its present home. Work on the new building will be rushed, following the awarding of the contract, it is understood.

## WOMAN VAGRANT GETS 60 DAYS

Reinh Warren, arrested by the police Thursday night was convicted of vagrancy by a jury in police court yesterday afternoon and sentenced to serve a sixty day jail sentence by Judge Briggs.

The Warren woman is a negro and has been arrested by the police on several occasions.

## GOSHEN SCHOOL TO BE MODEL BUILDING

Plans Adopted and to Be Given to Contractors in Short Time

Plans for an \$8000 school building for Goshen, the work to begin in the next month or three weeks, Ernest J. Kump, who is completing the final details of the plans, stated yesterday that the plans already have been adopted by the board of trustees of the Goshen school district.

The building will contain two classrooms and an auditorium. It will be a one-story brick structure. The building, though small, will be modern in every particular. It will contain its heating system and water plants, both to be located in the basement.

## GOOD TIMES FELT IN FRESNO TRADE

Max Cahn Returns From East; Looks for Real Business Boom

Fresno already is beginning to feel the effects of the good times that have started in the eastern states where money is flowing freely into circulation as a result of a remarkable revival in manufacturing. It will not be very long now before Fresno and the east in general will be basking in the sunshine of a genuine business boom.

This is a statement made yesterday by Max Cahn, manager of the Standard C. & B. House, upon his return from a buying trip in Boston and Chicago.

"Business everywhere looked very good to me," said Mr. Cahn. "Every body beamed with confidence that trade depression was a thing of the past."

"A never-fading indication of good times is when merchandise is scarce. Buyers have difficulty in procuring certain stocks. The eastern mills are running full blast, 24 hours a day. During the recent depression the working time was very much reduced, but I cannot give the exact figures. It is impossible, I was told, for the mills to fill orders in the time. This in itself indicates there is plenty of money in circulation. What affects one line of trade affects another. One line of industry cannot thrive, and another flourish, according to the law of averages. The revival in manufacturing gives assurance in itself that there is a general business revival. One section of the country cannot prosper without the other sections sharing in that prosperity."

Speaking of styles Mr. Cahn said: "They are very sensible this year. They are such that the public will be pleased. Features for the season include a great many suits and dresses trimmed in fur. There is a general tendency toward semi-fancy and fancy suits. The leading colors for the season are navy, African brown, Russian green, field mouse and sublimine gray."

## FLEET COULD PASS CANAL IN ONE DAY

WASHINGTON, Sept. 3.—Proof that the entire present main American battleship fleet, made up of four divisions of five ships each, and a flagship, a total of 21, could be passed through the Panama canal in one day has been afforded by the Naval Academy Practice Squadron.

The squadron composed of the battleships Missouri, Ohio and Wisconsin, the largest warships which have so far used the canal, were put through the locks at Pedro Miguel and through the locks at Colon and Colon simultaneously in parallel, with the Wisconsin directly in the rear. The towing locomotives had such perfect control of the ships that it was perceived that four vessels of even larger size could be handled in the locks at the same time, two in each of the duplicate chambers.

## WEST INDIAN STORMS ARE HERALDED FOR U. S.

WASHINGTON, Sept. 3.—Two West Indian storms are headed for American coasts. Hurricane warnings have been issued on the Gulf.

The more pronounced disturbance, now in the Gulf of Mexico, the monitor headed northward. Weather bureau officials said it would strike the Gulf coast tonight or Saturday morning somewhere between Cedar Keys and New Orleans.

The second storm, about which very little information has reached the weather bureau, is in the vicinity of the Bermuda Islands where the pressure remains abnormally lower. That storm apparently is moving in a north-northwest direction toward the Carolinas and the Virginia capes.

## VETERAN NOT TO HANG

JACKSON, Miss., Sept. 3.—Governor Brewer has committed to his imprisonment the death sentence imposed on J. A. Taylor, a Confederate veteran of more than 70 years of age, who was to have been executed September 4 for the murder of his daughter-in-law.

The governor declined, however, to interfere in the case of S. L. Johnson, a convicted murderer who is sentenced to hang Monday next. Johnson will be the first white man executed in Mississippi in more than ten years.

## Yes; S. S. S. Is Purely Vegetable Nature's Safe Blood Treatment

Known for 50 Years as the Best Remedy for Rheumatism, Catarrh, Scrofula, Skin Diseases. Scientists have discovered that the forest and the field are abundantly supplied with vegetation of various kinds, that furnish the ingredients for making a remedy for practically every ill and ailment of mankind. Medicines made from roots, herbs and fruits which Nature has placed at the disposal of man, are better than strong mineral mixtures and concoctions. The delicate parts of the system, especially the stomach and bowels, by eating the food from the living membrane, produce

ing chronic dyspepsia, and often entirely ruin the health. S. S. S. is guaranteed to be a purely vegetable remedy. It is made entirely of gentle-acting, healing, purifying roots, herbs and bark, possessing properties that build up all parts of the system, in addition to removing all impurities and poisons from the blood. S. S. S. is a safe treatment for Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison and all disorders of the blood. It cleanses the entire system and it's permanent. Get S. S. S. at any drug store. S. S. S. is a standard remedy recognized everywhere as the greatest blood antidote ever discovered. If yours is a peculiar case write to S. S. S. Co., Atlanta, Ga.

# California Oil News

## PATENTS DEVICE FOR USE OF OIL PUMPING

Serves as Tubing Bleeder, Catcher and Packer Without Change

TAFT, Sept. 3.—Mack Anderson of the General Petroleum Company has applied for a patent on a three-in-one oil well necessity which is attracting no little attention among all men of the Midway-Sunset field. The device is so designed that it acts as a tubing bleeder, catcher and packer, it doing all three duties without change. It can be attached to the tubing at any point above the pump, where it does its duties without trouble to the operator. The device promises to become of general use in the bleeding of wells, for in the sanding up of a well and the plunger sticking, the oil can be drawn off from the tubing without much of the work which usually occurs at such a time.

In case of the tubing parting, the catcher comes to the rescue by spreading and forming a contact with the casing. This tubing catcher also works the packer in that when the operator is ready to set the packer, the tubing catcher pushes up on the rubber and packs off.

The packer is so arranged that in case a 6-inch size is being used, and it is desired to place it in an 8-inch hole, a larger rubber only need be applied. In the case of the catcher in such an instance, an extra size bow only is installed.

A number of prominent oil men of the field have given the model of the device much consideration and believe that Anderson has an article which will bring about a great saving in the pumping of wells.

## GREENHORN MINES YIELD GOOD ORE

BAKERSFIELD, Sept. 3.—The old and well known Greenhorn mining district is receiving considerable attention this summer, according to prospectors returning from that section of the county, a number of old mines having received renewed attention, with the result that some valuable ore has been uncovered. The Emerald mine, famous as a producer in Kern county's earlier days, is being worked by Tom Treadwell, a well-known mining man. He has uncovered a six-inch streak of gold-bearing ore running 300 to 400 feet.

## BRIEF OIL NOTES OF MIDWAY FIELD

TAFT, Sept. 3.—Filled with enthusiasm over the outlook for the oil industry, W. G. Hae, a well known supply salesman, arrived in the field today on his first trip following a business outing to Pittsburg and the various Eastern fields. He states that he found much optimism throughout the East relative to the oil industry, and with the price slowly moving upward it appears certain that California will get its share of the betterment in the next sixty or ninety days.

Unable to return to Germany because of the war, and desiring to improve his time, the Bremen controversy is over. A. Schlenz, a native of Germany and a heavy owner of oil interests in New Guinea, is spending a few days on the East Side

## SEEK OPTION ON ANTIMONY MINES

Los Angeles Capitalists Renew Offer of \$10,000 for Amalie Property; To Begin Shipping Ore

BAKERSFIELD, Sept. 3.—Edith Rainey and Asperren Bros., owners of the Old Mill antimony claims in the Amalie mining district, have been advised by Los Angeles capitalists that they wish to renew the option on the claims. The Los Angeles men a short time ago offered \$10,000 for the claims, but failed to close the deal before the option expired.

Beginning Monday, shipments of antimony will start from California to the Magnolia Metals Company of New York, which has contracted for 100 tons of the metal from the Tippecanoe and Tippecanoe Second camps in the Andrie district. James O'Day, owner of the majority of the claims in these camps, also has a contract to deliver five tons of bismuth to another concern. The Western Metals Company of Los Angeles owns of a large smelting plant at San Pedro, has the second call on all antimony produced from these antimony mines.

studying California oil field methods. During his stay in the field he is the guest of Superintendent Paul Page of the Honolulu Oil Company. Mr. Schlenz is showing much interest in the late improved rotaries, and the method used in drilling as much as 100 feet a day as is apparent in the Midway among the drilling contractors and those who are out to make hole fast.

The Mascot Oil Company, on section 25, 32-23, is re-drilling the No. 6 well. The 7 5/8-inch casing has been shot off at a depth of 800 feet that re-drilling might be facilitated.

A carload of 12 1/2-inch pipe has been sent to the lease of the Dabney Oil Company on section 25, 31-22, in the North Midway, to be used in the drilling of new wells on the property.

The Federal Drilling Company is now rigging up on the No. 6 well of the Consolidated Mutual Oil Company on section 30, 31-23. This is to be a test hole with an endeavor to be made to find a lower oil sand. It is to be drilled under contract, with plans laid to go 4,000 feet if necessary, that this supposed sand may be found. The company now has four producing wells on the lease, all completed in a sand found at about 2800 feet.

A crew is rigging up with cable tools on the No. 13 well of the Consolidated Mutual Oil Company, on section 23, 31-22, preparatory to completing the well to the oil sand. The well was drilled to its present depth with a rotary under contract by the Federal Drilling Company. The contractors landed a string of 10-inch casing, thus completing the rotary work. The oil sand is looked for in the next 200 feet of drilling.

The No. 3 well of the Northern Exploration Company, on section 16, 32-24, on the side of the Duena Vista Hills, was brought in yesterday with a production of about 300 barrels daily. In the drilling of this hole a great dip was found in the oil sand which may necessitate the well being drilled deeper before it will make a showing such as is being made by other wells in the immediate vicinity.

## LABOR DAY PROGRAM ANNOUNCED BY COMMITTEE

Walter Thomas Mills Is Speaker of Day in Court House Park

Expect Large Attendance to Picnic, Games, Banquet and Dance

Plans for the Labor Day celebration to be held under the auspices of the Building Trades Council and the Central Labor Council, were completed last night by the committee.

Walter Thomas Mills, labor organizer and propagandist of Australasia, will be the speaker of the day. His address will be delivered at the court house park Monday morning at 10:30.

The program for the day follows: Band concert by band volunteered from Musicians union, at Court House park at 9:30.

Address, "Labor Victories in Australasia," by Walter Thomas Mills in Court House park at 10:30. Speaker will be introduced by G. M. DeVore, president of the Fresno Labor Council.

Basket picnic at Recreation park under auspices of Labor League. All invited to bring their basket lunches and join in festivities.

Baseball game between Building Trades Council and Central Labor Council teams at 2 o'clock. Tug of war between teams from the two organizations will be held prior to the game.

Labor banquet at Sequoia Grill. Cabaret and plenty of entertainment will follow short toasts. Banquet open to public, but tickets must be obtained before 8 o'clock Saturday night from members of committee. Price of tickets, 75 cents.

At 9 o'clock Leonard's park band will give a concert in the Court House park. A grand ball will be held from 9:30 to midnight at the auditorium.

Many to Take Part.

It is estimated variously that from 1,000 and 1,500 men and women will participate in the scheduled events for the Labor day celebration. The speech of the day by Walter Thomas Mills is declared to be one of the most learned addresses on the labor movement. It is anticipated that fully 3,000 people will greet the speaker, when he is introduced at 10:30 o'clock Monday morning.

Seriousness will be discarded with the conclusion of the morning's address when union men and women will meet in Recreation park for the games and picnic. The ball tossing aggregations are said to be passably fast, and the rivalry is intensely keen. The tug of war teams are evenly matched.

In the evening the banquet will accommodate about 250 people. The proceeds will be used to defray the expense of the prizes given to the winner in the sport events. A diversified selection of high class cabaret numbers has been secured by the committee in charge.

The dance at the auditorium will be one of the largest of the year. James Herriman will act as floor manager. Tilton's orchestra will furnish the music.

## STATE AUDITING ON THE INCREASE

On July 21, 1915, the California State Civil Service Commission gave an examination for the position of auditor with the State Board of Control. The work of these auditors includes the auditing of the accounts of the state institutions and assisting in the installation of systems of accounts in county offices throughout the state. The annual work to be done is such however that another examination has been found necessary, and the State Civil Service Commission has fixed upon October 1, 1915, as the date for the second examination.

This new examination will differ from the former one in that two lists of eligibles will be secured, one of senior auditors and the other of junior auditors, the requirements for the latter being less rigid for the former. The examination is open to all American citizens residing in California who have had at least one year's experience auditing in the offices of a public accountant, or its equivalent.

Further information and application blanks may be secured from the State Civil Service Commission at either room 733, Ferry Building, Sacramento, or room 10, Ferry Building, San Francisco; also from the Los Angeles County Civil Service Commission, Hall of Records, Los Angeles.

**BANK ACCOUNTS ATTACHED.**—Return of writ in the attachment case of Guy Lottory Stevick against Dierck & Anderson was filed with the county clerk yesterday. On August 11, Stevick brought suit to collect \$3,454.77 alleged to be due the Fidelity and Deposit Company of New York, a surety company, on account from the defendant. George Conrady is representing the plaintiff. Roberts & Ewing, appearing for the defendant, have entered a demurrer in the case. Property, automobile and bank accounts of the defendant firm have been attached.

**HOLD PICNICS.**—The girls and young ladies of the Holmes Embroidery Club were entertained in a picnic, frolic and period of embroidery at Gooding Park Thursday by Mrs. Edith Griffin, a supervisor of play at the Holmes playgrounds. The boys of the grounds spent the day at Zappa's Park.

**SUES TO COLLECT RENT.**—Suit was brought in the Superior Court yesterday by Louis Trinary against J. Dierck, Arthur Stevick and others to collect \$525 alleged to be due as rent, also to foreclose mortgage on lots 1, 2, 3, and 4, in Block 41, Fresno City. Crabtree and Bonsted are attorneys for the plaintiff.

**PARIS SENT.**—2:20 p. m.—Premier Dato of Spain stated today that his government had received no reply from Germany to its protest against the sinking of the Spanish merchant ship, by a submarine except the statement that Germany "will" take information concerning the incident. The correspondence of the Havre Agency at Madrid adds: "The Spanish government makes formal denial of the statement published abroad that it has determined upon a general mobilization of 500,000 troops in October."

It is a trite saying that "not what you earn, but what you save that counts."

The world pays tribute to the man who saves.

Our object is to assist you to save by offering you the necessary inducement.

4% interest on saving accounts.

Can you beat it?

Or, perhaps you desire a checking account.

If you do, you have access to the facilities of a well organized, well managed banking institution.

And those facilities are at your disposal.

## MILITARY COURT CAN DEMAND TESTIMONY

DENVER, Colo., Sept. 3.—Attorney General Fred L. Carr in a formal opinion transmitted to Governor George A. Carlson today, held that the military court of inquiry now in session is authorized to answer questions. The court is investigating charges against Adjutant-General John Chase and other officers of the National Guard of Colorado. It was explained that after the opinion had reached the court, attachments would be issued for the arrest of C. D. Elliott, and perhaps for that of Philip S. Van Cise, a former captain of the militia and head of the officers' committee which made the original charges.

## "SEVEN SISTERS" CONVULSES AT KINEMA

VIOLA ALLEN IN "WHITE SISTER," TOMORROW

Marguerite Clark is Only Four Feet, Two Inches Tall, But She Brings Five Thousand Feet of Laughs—At Kinema

Suppose that there were several marriageable daughters in your family, and the youngest one insisted upon snatching away her elder sister's matrimonial opportunities? That is the situation in "Seven Sisters," and an enthusiastic audience caught the drift of the screaming humor at the Kinema yesterday. The comic situations are piled high in this delightfully refreshing Paramount comedy, with Marguerite Clark, as Mici, the youngest daughter.

**Miss Clark's Best and Most Glorious Comedy to Date.**

Thy Marguerite Clark, adorable and vivacious to a degree, is altogether delightful. She plays with a thorough enjoyment of her part. Her mischievous gravity is enhanced by a rather wistful air, which she varies with bursts of wild, uproarious mirth, never captivated, her hoydenish pranks and irresistible girlishness will

lead so that she may leave the convent. Great Big Mary Pickford Week Every Day from Monday Until Sunday. Next week is the greatest, the biggest and most interesting week that the Kinema has ever had. Mary Pickford's two greatest plays, with her in the lead, are being devoted to her most stunning drama, "Test of the Storm," while the last four days bring her latest and most remarkable comedy, "Rags." Piccoons may thus see America's idol in both tragedy and comedy, and judge for themselves. Both plays are unsurpassed in beauty, laughs, tears, pathos and Mary Pickfordisms. A special announcement is being made that the Kinema will be open every day (including tomorrow, also) at 11 o'clock in the morning.

## BEAUTY AT PLAZA WINNER OF CONTEST

Josephine Bennett Is a Woman of Enchanting Charm

Mae Josephine Bennett, physically perfect woman, at Plaza.

Many persons in Fresno who take a well known magazine devoted to physical culture in looking through a recent issue discovered that one of the most perfect women in the country physically is Mae Josephine Bennett, who is playing at the Plaza. Bennett has many distinctions to make her a very noted woman along the lines of physical perfection. She is an artist's model, who posed during the Venetian Water Carnival in San Francisco and attracted a great deal of attention by her beauty.

In her act at the Plaza and by the way, she makes her last appearance to-night—Miss Bennett has some Greek dancing and also offers herself as a living replica of some of the famous paintings in the Palace of Fine Arts at the exposition. Her likeness to them as she is framed with lights to give the correct effects is very striking, and devotees of art at once recognize the picture she is posing in.

"Well, What Do You Want?"

This is the question from Curcio, one of the talking birds at the Plaza this week, when Victor Niblo makes certain demands of him. It is really surprising, but we are a number of other things that this remarkable bird does. Laura and Curcio can carry on a conversation, sing a song and whistle. They are the most remarkable birds in the world and their act is one of the best that has ever been seen in Fresno.

The Miram-Xylophone.

Dick and Marguerite Curcio in the musical act have some exquisite melody. The Miram-Xylophone is played by them in sweet tones and charming, and their rendition of "The Rosary" meets with entire approval. They also perform on other instruments.

Brown & Brown, a comedy team, have as a feature of their act the whistled piano imitation. Their jokes and songs are well and they win deserved popularity.

Miss Margaret Christon, the pretty cartoonist, sings a little, tells a great deal, and draws some excellent comic pictures. Tomorrow there will be an entire change of bill.

## "KREUTZER SONATA," IS A STARTLING PLAY

Nance O'Neil, Theda Bara and William Shay in Leo Tolstol's Soul-Stirring Play—Fresno Photo Today

"Kreutzer Sonata" is creating a sensation in Fresno at the present time—a play that caught the fancy of the theatergoers. As the New York Times said: "Not to have seen it forms a confession."

## FRONTIER DAY AT LYRIC THEATER

Kathleen Williams, who will star in "The Rosary," coming to The Lyric soon.

"Big Jim's Head," a two-reel drama of early frontier days in the West, containing an abundance of thrills and probably is the best of a big program at The Lyric for the last time today. Big Jim is the sheriff of the frontier town in which the action of the picture takes place. His staunch support of the law and his campaign against a wild outlaw gang draws into it a young girl, the daughter of the "bad man" of the country. Dany express riders, the frontier mailmen, play an important part in the action.

Jack and Jerry, a North Pole Expedition is the principal comedy feature of the program. This picture is a moving cartoon. The comedy is original in thought and clever in detailed development.

"The Ill" is the story of a marriage wherein two men love the same woman. She is engaged to one while she loves the other. It is a powerful story of the inevitable consequences of sin.

"The Home-Comer" is the last but not by any means the least important.

"The Rosary."

"As good as any good sermon" is the verdict of the clergy on "The Rosary," the Being Red Seal feature looked for the Lyric September 12 and 13. The photo story was written by Edward E. Rose and was adapted from his wonderful stage play. The production is a masterpiece of its kind, and has been commended by those of every religious faith. The scenic equipment is amazing and the lighting effects are gorgeous.

"The Chance of Courage."

Cerna Townsend Brady, the famous author who wrote "The Island of the Generation" and many other successful novels, is the writer of "The Chance of Courage," coming to The Lyric September 12 and 13.

This is a story of emotional drama in which are pictured Mervyn Gwynne, George Holt, William Damm and other well known Vitaphone stars.

The Fresno Photo theater played to large audiences throughout the entire day yesterday. Today is the last day that it will be shown, therefore record breaking crowds are expected. The public are just getting wise to the name William Fox on a feature.

Holds Audiences Relentlessly in Thrill.

The play holds the audiences relentlessly in thrill, from the opening scenes of the picture to the terrific climax where shot after shot is fired, the suspense of a girl fate, supply to a common ruin.

Nance O'Neil, who portrays with wonderful emotional strength and power the character of Miriam, a young Russian girl in "Kreutzer Sonata," reaches heights that she has never attained even upon the speaking stage.

Children Not Admitted Unless Accompanied.

In presenting this play the Fresno Photo will refuse admittance to children under 15 years if not accompanied by their parents. You owe it to yourselves to see the great play, the splendid acting, the superb scenery, the compelling drama you will ever remember.

Next week is another "big" week at the Fresno Photo with Fox features every day.

## VAQUEROS ON TRIP TO BOOST BIG RODEO

Fresno District Fair's Broncho Busters Off to Nevada Roundup

A band of rodeo, Boss T. J. Griffin's crack vaqueros, headed by Ben Dobbins, the champion broncho buster, well known in the San Joaquin Valley, left Fresno yesterday for Elko, Nevada, to take part in the prize contests in the rodeo there and to boost the Fresno rodeo and Fresno de Oro. Dobbins, who has conquered more four-footed outlaws than most of the old-time range riders, and who has been in all of Griffin's big shows for years, will return with his associates in due to smash a few more records at the Fresno district fair.

So confident is Boss Griffin in the prowess of his proteges that he has bet a pair of arena chairs and a silver-mounted saddle that Ben will return from Elko wearing the champion's belt or leather breeches or whatever it is that the Nevada cattlemen give as the trophy prize. It is expected that Dobbins also will visit Boise and Walla Walla to take part in similar contests in those cities on his way home.

## To Acquire Curly Hair Over Night

(The Beauty Editor.)

There's good news, indeed, in the announcement that so simple a method as applying plain liquid salerine to the hair will make it beautifully curly and wavy over night. The hair dries in lovely waves and ripples that are perfectly natural in appearance, and there is nothing sticky, greasy or unpleasant about it. The liquid, which is of course quite harmless, also serves as a splendid dressing for the hair, keeping it delightfully glossy and supple.

If one will procure a few ounces of liquid salerine from the drugstore, she will have enough to keep the hair in curl for weeks. It should be applied at night with a clean tooth brush, leaving the hair to be very prettily waved, without having to burn, useless loss acquired by using a heated iron.

# HOBBOES TO SPEND A QUARTER OF A MILLION DOLLARS

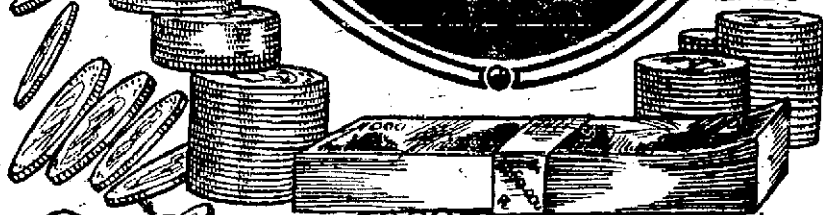

Many Schemes Are Suggested to James Eads How, Well Known as "The Millionaire Tramp", Who Says He Will Let Comrades Help Dispose of His New Inheritance

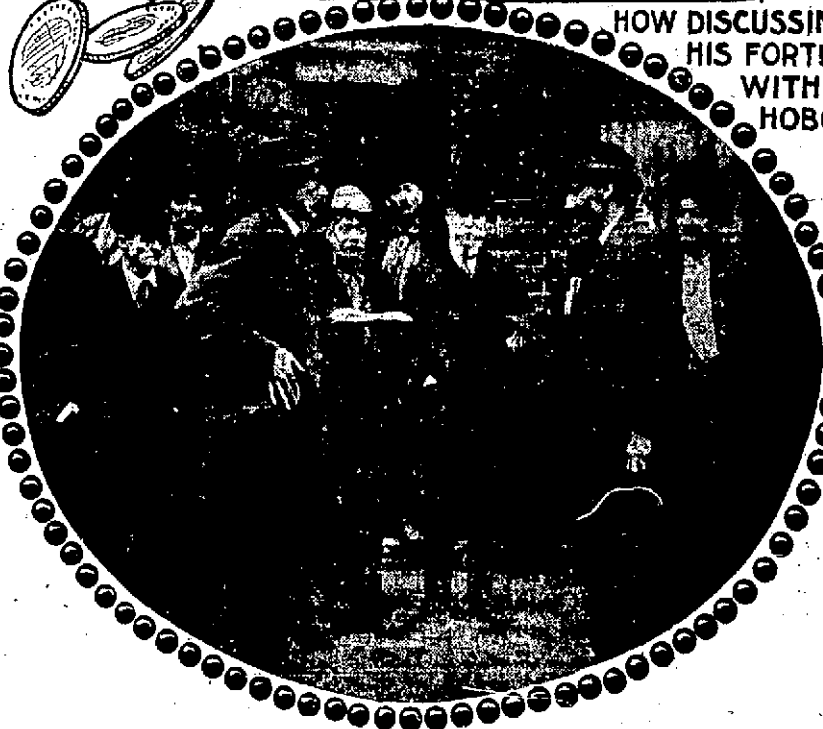

JAMES EADS HOW

HOW AND HIS LIEUTENANTS

HOW DISCUSSING HIS FORTUNE WITH HOBBOES

How would you like to be a homeless wanderer, with a box car as your only shelter, a begged meal as your nourishment and no hope for your future salvation other than prosaic work—and then find yourself heir to \$250,000 that you might spend as you wish?

Such a circumstance has been the "hobo" dream from the early beginning when men first rode "the rods" and paid more attention to their present want than to the future necessities of hard-earned fruits from honest toil, but it was realized in the great realm of the unemployed just a few days ago when Dr. James Eads How of St. Louis, friend and benefactor of the unemployed, announced a fortune of \$250,000, left him by his mother, would be distributed among his jobless associates.

Having been in the profession for years and being used to deal with imaginary millions as if they were but cigarette coupons, the millions of the unemployed took James Eads How's offer of his wealth at naught until several days ago when at a general convention of the Brotherhood Welfare Association he actually offered the disposal of the first \$125,000 of the bequest to his brethren in the great cause of industrial freedom.

It now is a fact the money is to be distributed and every tramp from New York to Frisco, who has read back numbers of the city newspapers is cheerfully mentally disposing of the How wealth as calmly as if it were his own.

The wanderers of this country are philosophers for they have much leisure time to devote to thought and nothing is more conducive to

lead the mind into the proper channels. These prolific philosophers have advanced to James Eads How many plans and suggestions for the disposition of his wealth. They have assimilated the problem with open interest in mind. No man of them suggested investment in stocks or bonds, for the brotherhood of wanderers is opposed to investments and credits money only with its actual buying power of food and comfort.

But behind this offer of \$250,000 for the cause of the unemployed is the sincere wish of a man of good family, education and of rank as a physician to do a great deed for his brethren. James Eads How, son of a wealthy St. Louis family and a nephew of the great Col. Eads who designed the Eads bridge at St. Louis and was celebrated for his achievements as an engineer during the civil war, abandoned his lofty position in the social world, bade farewell to his mother and at middle age became one of the most humble of wanderers.

**ON THE RODS.**

Since his career as a wanderer started he has been one of the unemployed. The dress suit of fashion has been discarded for the humble garb of a tramp, the polish of the social circle has been given up for the coarse language of the "yeggs," the hygiene of his medical training was forgotten in the dreary and unsanitary shelters of hobos along railroad right-of-ways, and the old mode of respectable living was cast off so that Dr. James Eads How, university graduate, physician and student, might come more closely in touch with the human flotsam with which his sympathy ran.

Often has he spent the night on the blind baggage or on the rods on his way to attend some convalescent of this restless brotherhood that seeks life only after the plans of the great philosophers Hobbes and Rousseau. His meals were either begged or came from a generous tin can in which the great brotherhood cooks its "Mulligan stew" from the meat of the chicken that chances to stray across the road and from potatoes "cashed" at some farm house.

At times when he had plenty of money in his pockets and a rich and indulgent mother in St. Louis who would answer his every request with any sum he might designate, James Eads How went back to this primitive mode of living and enjoyed it. He is a doctor who can cure the ills of his unfortunate friends, he is a philosopher who can raise them from despondency and a financier who can advise them that wealth is only a phantom, the pursuit of which leads one away from the original and real purposes of life.

When Dr. How had money he said to his associates:

"This represents something that I have not earned myself and I will have none of it." Just as he recently spoke when he became heir to his mother's fortune.

When his father died and left him about \$100,000 he gave it to the Brotherhood Welfare Association with the remark it was theirs and he was but turning it back to them. From that sum he took not one cent. He said he was still capable of earning a few dollars a week and would support himself on what he might earn.

In all this his mother indulged him. He had placed the family name

at naught and in his own city, had belittled it but his mother never chided him because of his choice. Part of the day he was in the slums with uncouth men, in rooms filled with tobacco smoke and rank from the perspiration of the bodies of unclean men. At night he was at his mother's well-appointed home in the midst of luxury. The transition meant nothing to him and his mother did not mention it.

He abandoned the study or practice of medicine only in as far as he was able to care for the wants of his fellow sufferers and this work was done without fee. Beside caring for the bodily infirmities of these men he saw that they were well supplied with food. Each Sunday the Brotherhood Welfare Association meets in St. Louis and each Sunday James Eads How is present. He is treated by the men as any other "hobo" and often has been outwitted by more powerful orators than he. But each Sunday he sees that these men do not go away with empty stomachs. From his own pockets he supplies the funds for coffee and rolls.

Among this great organization he is the least demonstrative and the least impressive. One who might find him among his associates would believe him nothing but a gull tramp. A mustache and a suit of shabby clothes with a soiled hat pulled down over his forehead add to this impression.

**HIS ODD PHILOSOPHY.**

It is a strange and sincere philosophy and love of his fellow men that inspires James Eads How to give his money to this strange class of men. No millionaire ever dispensed part of his wealth with as definite and yet peculiar an object in view

as the one that inspires Dr. How.

"I did not earn this money," he said in an interview, "and I do not want it. Money represents only so much toil on the part of the poor and the unemployed. It is gained through their efforts, protected through their discharge or starvation and finally in the end is theirs to take back."

"I can earn enough to satisfy my own wants and that is sufficient. I shall let the unemployed dispose of my wealth."

Beside giving with the unemployed, attending their weekly meetings and supplying them with food and funds, James Eads How has advocated their most radical principles as expressed in the platform and views of the International Workers of the World.

How was arrested in St. Louis while making an I. W. W. speech. He was discharged in police court because of lack of evidence against him and because the How name means something in that city. Its bearer may appear as a tramp but when the police or police magistrates consider his family record they are inclined not to be too harsh with him.

How is a strong believer in syndicalism. This is a form of labor unionism which aims at the abol-

ition of the capitalist system based upon the exploitation of the workers and its replacement by a new, social order, free from class domination and exploitation. It is a practical movement in that these ends are to be accomplished by the direct action of the unions, without parliamentary action, or the intervention of the state.

The distinctive feature of its ideal is that in the new social order the political state will not exist, the only form of government being the administration of industry by the workers themselves.

**TO PUBLISH HIS IDEAS.**

Syndicalism, in which How and his associates believe, is based on the sociologic doctrine of class warfare. All syndicalists believe that in the new social order toward which they are striving, the political state will have no place. They agree that the only government that will be necessary is the government of industry, of production and distribution, and that this will be carried on directly by the people and workers themselves.

With these ideas in view How and his associates are planning the disposition of his wealth and he suggests that \$20,000 be spent in making public the ideas of his order.

A newspaper probably will be published with this idea. So far it has not been suggested that the money be spent in establishing some business that would give employment to the idle. Those concerned in the disposition of the How wealth do not intend fighting industrial conditions by submission. They do not intend fighting existing conditions and then humbly submit themselves to the yolk.

Those in favor of the lodging house are the ones who have spent several winters in municipal lodging houses or in police stations. At the lodging houses the men slept on the concrete floor with newspapers as mattresses and newspapers as covering. In the police station they slept either on the floor or on a hard wooden plank.

Wooden planks and cold, concrete floors take all the romance out of tramp life, the members complain. While it is fun to sleep beneath the stars on some grassy knoll during the summer, the artistic temperament of the "hobo" is ruffled by the unromantic "dop" in lodging house or police station.

How recently announced that \$5,000 will be available in May for the St. Louis local. His associates are still busy planning how they are to spend it.

## COUNTY TAX RATE TO BE \$1.68; SUPERVISORS REACH AGREEMENT

No. Money Set Aside for Improvements, Except \$10,000 for Fresno Fair Grounds; Provision Is Made for Three Elections During Year

The board of supervisors completed their second day yesterday in going over the county budget and reached an agreement whereby the county tax rate will be fixed at \$1.68. They will officially decide the matter at a meeting Monday. The supervisors were in conference with H. C. Harvey, county expert, practically all day.

No money will be put aside for improvements except \$10,000 for improvements at the county fair grounds. The work has almost been completed. The supervisors decided that no controllers will be installed in the courthouse park unless sufficient money is available from the \$25,000 emergency fund, but this will not be known until April. In any event, however, the controllers will be built a year from this fall.

For three elections \$25,000 was set aside. One is the general state amendment election, one the bond election for good roads and another the presidential primary election. Ten thousand dollars was set aside for the completion of the highway from city limit to city limit in Fowler, Selma and Kingsburg. The county is to bear only one-third of this expense, the towns and the Southern Pacific the balance.

To pay premiums on compensation insurance for county employees, \$5,122.29 was set aside. The tax rate this year was fixed at \$1.68, as against \$1.50 last year. If it was not for the new way the high school tax was levied, this year's tax would have been only \$1.46. Under the new arrangement, a general high school tax of 15 cents was raised through the supervisors. This is the first year this tax has been put directly upon the county. This 15-cent tax will realize about \$113,000.

Last year the grade school tax was 25 cents. It raised a total of \$185,000. This year the grade school tax is 32 cents. There is 7 cents difference between these two items, which added to the 15-cent high school tax makes the general school tax 22 cents greater this year than last.

Here is the way the \$1.68 tax is divided:

Stooped, shouldered, near sighted, inefficient men were boys whose parents neglected to have their eyes examined when the boys were in school.

Have you children in school?

Is your boy doing his best?

Glasses.

## 9 AND 11-YEAR-OLD KLEPTOMANIACS HELD FOR HOUSE BURGLARY

Officers Find One of the Boys Held by Heavy Iron Chain

For the third time in the past few months, Raymond and Benjamin Shook, aged 11 and 9 years respectively, were arrested by the police yesterday. Raymond, the older of the two boys has confessed to having burglarized the home of Mrs. Phipps, 2338 Iowa street, two days ago. The youthful burglar obtained 25 cents, a handful of marbles and some small novelties. Both boys, the police declare, are kleptomaniacs. A poor home environment is given as a possible cause. Yesterday when the police traced the burglar tracks from the Phipps residence to the home of Benjamin Franklin Shook, they found the young offender huddled by a heavy steel chain, one end of which was fastened about his waist and the other to one of his legs. The officers brought the boy to the police headquarters but were forced to take him to a machine shop, where the chain was cut away.

Both boys have been implicated in numerous cases of petty thieving. A few weeks ago they stole a horse from a neighbor and drove it about town. They repeated this offense. On both occasions they readily admitted their guilt when accused by the police. The little fellows are extremely bright according to the officers. Lack of proper training is blamed for the criminal traits which have been developed.

Both of the boys were taken to the detention home last night. They will be taken in charge by juvenile officers today.

\$1,000; from general fund, \$86,900. Cement bridges and culverts, \$27,000; from general fund, \$1,975; salary fund \$600. Orphanage, general fund, \$3,500. Outside orphan, \$3,500; from general fund. Horticulture, general fund, \$4,872. Court house and park, salary fund, \$4,620; general fund, \$7,500. Jail, general fund, \$2,275. Engine room, salary, \$1,200; general fund, \$1,300. Detention home, general fund, \$3,005. Fair grounds, general fund, \$13,300. County library, general fund, \$20,200. In the miscellaneous items are included highway connection, \$10,000; election commission, \$25,000; interest on highway bonds, \$1,000; emergency, \$25,000; Badger-Sumner clock, \$2,171.50; premium on insurance, \$2,171.50. Scales of Weights and Measures—General fund, \$2,500. Hospital, total salary, \$5,100; indigent fund, \$3,316. Almshouse, indigent fund, \$10,465. Outside indigents, indigent fund, \$2,646. In the miscellaneous income item, the county clerk's fees are \$10,000; sheriff's fees, \$15,000; recorder's fees, \$25,000; justice fees, \$3,000; available cash balances, \$52,917. Amount to be raised by taxes, \$174,052. The general fund total is \$20,842; amount to be raised by taxes, \$323,989. The indigent fund is \$1,500; the amount to be raised by taxes, \$90,509.

## NEW LUG BOX RATES FOR GRAPES APPROVED

O. K. Given by Interstate Commerce Commission; Effective Sept. 15

The Interstate Commerce Commission has approved the special rates offered by the railroads to grape growers of the San Joaquin valley who wish to ship their products to eastern markets in lug boxes. Growers recently made application to the railroad for the right to ship in open boxes.

An announcement was made yesterday by the Santa Fe and Southern Pacific that the new rates will go into effect September 15.

## MILITIA MAKES HIGH RECORDS

Company C of the militia will hold a two-day encampment at Herndon tomorrow and Labor Day, Monday. Considerable time will be spent in rifle practice. Out of a possible score of fifty the following scores were made in the indoor rifle shoot on a fifty-foot range last night: Neill, 42; Walsh, 40-42; Bowen, 40-42; Stafford, 40-41; Larson, 41-42; Peck, 40-46; Bennett, 45-40; Rohrbach, 42-46; Pavia, 41-43; Stockholm, 39-47; Thompson, 40; Johnson, 43-46; Armstrong, 43-43; Sweet, 44-45; Taber, 15-43.

## RULING IS WANTED ON PROHIBITION LAW

DENVER, Colo., Sept. 3.—The State Supreme Court will be asked to take original jurisdiction in a suit asking the city of Denver to grant a saloon license extending beyond January 1, 1916. It was announced today by Fred Furrer, attorney-general, Colorado's statewide prohibition constitutional amendment becomes effective on that date. City and county officials of Denver will join in the request. The attorney-general will base his request on the ground that every phase of the prohibition situation presents constitutional questions, and chaos and disorder will prevail unless there is a speedy decision by the Supreme Court.

## MAY ARBITRATE ALL SUBMARINE LOSSES

WASHINGTON, Sept. 3.—The American position toward a method of fixing compensation for lives and property lost in German submarine operations, such as the Lusitania and the Arabic, was not been finally determined, but there probably will be no opposition to fixing the amounts by arbitration. Berlin dispatches, apparently officially inspired, saying that Count von Bernstorff, the German ambassador, has wide discretionary powers to
